Cloth and Clothing in Medieval Europe Eleanora Mary Carus-Wilson, 1983

Funerary Equipment of Rudolf, King of Bohemia, 1995

Medieval Clothing and Textiles Gale R. Owen-Crocker, Robin Netherton, This sixth volume of Medieval Clothing and Textiles ranges widely as ever across England and Europe It presents two groundbreaking articles in novel areas of textile and dress scholarship an introduction to a previously unexamined class of embroidery decorative manuscript repair and an English language overview of scholarly research on historical dress in Latvia Among the other topics considered in the volume are two very different listings of clothing items from medieval Germany an invented lexicon by the mystic Hildegard of Bingen and an accounting of specific real garments worn by ordinary people and donated to finance the building of Strasbourg Cathedral Papers also consider the mercantile world of clothing in medieval London one gathers insight on dealers of secondhand clothing from the evidence of historical documents while the other examines the social rise of the mercers in the

light of their representation in literature and their connections to the literary world. Further articles consider luxurious dress accessories with both worldly and spiritual significance and analyse a French manual for English housewives illuminating the often overlooked topic of home linen production *Organization and Management Systems in the Forest Service*, 1970

Woven Into the Earth Else Østergård, 2004 One of the century's most spectacular archaeological finds occurred in 1921 a year before Howard Carter stumbled upon Tutankhamun's tomb when Poul Norlund recovered dozens of garments from a graveyard in the Norse settlement of Herjolfsnaes Greenland. Preserved intact for centuries by the permafrost these mediaeval garments display remarkable similarities to western European costumes of the time. Previously such costumes were known only from contemporary illustrations and the Greenland finds provided the world with a close look at how ordinary Europeans dressed in the Middle Ages. Fortunately for Norlund's team wood has always been extremely scarce in Greenland and instead of caskets many of the bodies were found swaddled in multiple layers of cast off clothing. When he wrote about the excavation later Norlund also described how occasional thaws had permitted crowberry and dwarf willow to establish themselves in the top layers of soil. Their roots grew through coffins, clothing and corpses alike binding them together in a vast network of thin fibers as if he wrote the finds had been literally sewn in the earth. Eighty years of technical advances and subsequent excavations have greatly added to our understanding of the Herjolfsnaes discoveries. *Woven into the Earth* recounts the dramatic story of Norlund's excavation in the context of other Norse textile finds in Greenland. It then describes what the finds tell us about the materials and methods used in making the clothes. The weaving and sewing techniques detailed here are surprisingly sophisticated and one can only admire the talent of the women who employed them especially considering the harsh conditions they worked under. While *Woven into the Earth* will be invaluable to students of medieval archaeology, Norse society and textile history both lay readers and scholars are sure to find the book's dig narratives and glimpses of life among the last Vikings fascinating.

Clothing the Past: Surviving Garments from Early Medieval to Early Modern Western Europe Elizabeth Coatsworth, Gale Owen-Crocker, 2018-02-12 An astonishing number of medieval garments survive more or less complete. Here the authors present 100 items ranging from homely to princely. The book's wide ranging introduction discusses the circumstances in which garments have survived to the present sets and collections, constructional and decorative techniques, iconography, inscriptions on garments, style and fashion. Detailed descriptions and discussions explain technique and ornament, investigate alleged associations with famous people, many of them spurious, and demonstrate even when there are no known associations how a garment may reveal its own biography, a story that can include repair, remaking, recycling, burial, resurrection and veneration, accidental loss or deliberate deposition. The authors both have many publications in the field of medieval studies, including previous collaborations on medieval textiles such as Medieval Textiles of the British Isles AD 450-1100: an Annotated Bibliography 2007, the Encyclopedia of Medieval Dress and Textiles of the British Isles 2012, and online bibliographies. **Medieval Clothing and Textiles 3** Gale R.
