Meister Eckhart Sermons And Treatises Vol 2:

On the Blissful Islands with Nietzsche & Jung Paul Bishop, 2016-11-03 What are the blissful islands And where are they This book takes as its starting point the chapter called On the Blissful Islands in Part Two of Nietzsche's Thus Spoke Zarathustra and its enigmatic conclusion The beauty of the Superman came to me as a shadow From this remarkable and powerful passage it disengages the Nietzschean idea of the Superman and the Jungian notion of the shadow moving these concepts into a new interdisciplinary direction In particular On the Blissful Islands seeks to develop the kind of interpretative approach that Jung himself employed Its chief topics are classical the motif of the blissful islands psychological the shadow and philosophical the *homo* or superman blended together to produce a rich intellectual historical discussion By bringing context and depth to a nexus of highly problematic concepts it offers something new to the specialist and the general reader alike So this book considers the significance of the statue in the culture of antiquity and in alchemy and investigates the associated notion of self sculpting as a form of existential exercise This Neoplatonic theme is pursued in relation to a poem by Schiller at the centre of which lies the notion of self sculpting thus highlighting Nietzsche's and Jung's relationship to Idealism Its conclusion directly addresses the vexed and controversial question of Nietzsche's relation to Plato This book's main ambition is to provide a cross cultural interdisciplinary reading of key themes and motifs using Jungian ideas in general and Jung's vast seminar on Zarathustra in particular to uncover a dimension of deep meaning in key passages in Nietzsche Engaging the reader directly on major existential questions it aims to be an original thought provoking contribution to the history of ideas and to show that Zarathustra was right There still are blissful islands This book will be stimulating reading for analytical psychologists including those in training and academics and scholars of Jungian studies Nietzsche and the history of ideas

The Archaic Paul Bishop, 2011-09-30 The Archaic takes as its major reference points C G Jung's classic essay Archaic Man 1930 and Ernesto Grassi's paper on Archaic Theories of History 1990 Moving beyond the confines of a Jungian framework to include other methodological approaches this book explores the concept of the archaic Defined as meaning old fashioned primitive antiquated the archaic is in fact much more than something very very old it is timeless inasmuch as it is before time itself Arch Urgrund Ungrund primordial darkness eternal nothing are names for something essentially nameless yet whose presence we nevertheless intuit This book focuses on the reception of myth in the tradition of German Idealism or Romanticism Creuzer Schelling Nietzsche which not only looked back to earlier thinkers such as Jacob Boehme but also laid down roots for developments in twentieth century thought Ludwig Klages Martin Heidegger The Archaic also includes studies of the Germanic dimension of the archaic Charles Bambach Alan Cardew a discussion of the mytho phenomenological approach to the archaic Robert Josef Kozlani a series of articles on Jung's understanding of the archaic Paul Bishop Susan Rowland Robert Segal This book will be of interest to psychoanalysts anthropologists and phenomenologists as well as students of psychology cultural studies religious studies and philosophy as

it seeks to rehabilitate a concept of demonstrable and urgent relevance for our time Dying to Self and Detachment Professor James Kellenberger, 2012-09-01 Exploring the religious category of dying to self this book aims to resolve contemporary issues that relate to detachment Beginning with an examination of humility in its general notion and as a religious virtue that detachment presupposes Kellenberger draws on a range of ancient medieval modern and contemporary sources that address the main characteristics of detachment including the work of Meister Eckhart St Teresa and Simone Weil as well as writers as varied as Gregory of Nyssa Rabi a al Adawiyya S ren Kierkegaard Andrew Newberg John Hick and Keiji Nishitani Kellenberger explores the key issues that arise for detachment including the place of the individual s will in detachment the relationship of detachment to desire to attachment to persons and to self love and self respect and issues of contemporary secular detachment such as inducement via chemicals This book heeds the relevance of the religious virtue of detachment for those living in the twenty first century **The Blue Sapphire of the Mind** Douglas E. Christie, 2013 In *The Blue Sapphire of the Mind* Douglas E. Slavoj Žižek and Christianity Sotiris Mitralaxis, Dionysios Skliris, 2018-07-18 Slavoj Žižek s critical engagement with Christian theology goes much further than his seminal *The Fragile Absolute* 2000 or his *The Puppet and the Dwarf* 2003 or even his discussion with noted theologian John Milbank in *The Monstrosity of Christ* 2009 His reading of Christianity utilising his signature elements of Lacanian psychoanalysis and Hegelian philosophy with modern philosophical currents can be seen as a genuinely original contribution to the philosophy of religion This book focuses on these aspects of Žižek s thought with either philosophy and cultural theory or Christian theology serving as starting points of enquiry Written by a panel of international contributors each chapter teases out various strands of Žižek s thought concerning Christianity and religion and brings them into a wider conversation about the nature of faith These essays show that far from being an outright rejection of Christian thought and intellectual heritage Žižek s work could be seen as a perverse affirmation thereof Thus what he has to say should be of direct interest to Christian theology itself Touching on thinkers such as Badiou Lacan Chesterton and Schelling this collection is a dynamic reading and re reading of Žižek s relationship to Christianity As such scholars of theology the philosophy of religion and Žižek more generally will all find this book to be of great interest

Meister Eckhart, Sermons & Treatises: With the newly discovered fragment of an unknown sermon Meister Eckhart, Meister Eckhart thirteenth century Dominican theologian and the greatest of German mystics speaks to us with a new voice in this faithful and authoritative translation by M O C Walshe Eckhart was regarded as the most learned scholar of his time people flocked to hear him preach and his influence on contemporary theology was considerable However his declaration as a heretic has meant that his spiritual message has been lost to us for centuries Today his teachings are being rediscovered by a new generation of spiritual seekers following his wayless way which bridges East and West **The Harvest of Mysticism in Medieval Germany (1300-1500)** Bernard McGinn, 2005 The fourth volume in the universally acclaimed *The Presence of God* series *The Harvest of Mysticism* is a tour de force study of medieval German mysticism from Thomas Aquinas and his

C. Forman, 1998 This book is the sequel to Robert Forman's well received collection *The Problem of Pure Consciousness* Oxford 1990 The essays in the earlier volume argued that some mystical experiences do not seem to be formed or shaped by the language system a thesis that stands in sharp contradistinction to deconstruction in general and to the constructivist school of mysticism in particular which holds that all mysticism is the product of a cultural and linguistic process In *The Innate Capacity* Forman and his colleagues put forward a hypothesis about the formative causes of these pure consciousness experiences All of the contributors agree that mysticism is the result of an innate human capacity rather than a learned socially conditioned and constructive process The innate

capacity is understood in several different ways Many perceive it as an expression of human consciousness per se awareness itself Some hold that consciousness should be understood as a built in link to some hidden transcendent aspect of the world and that a mystical experience is the experience of that inherent connectedness Another thesis that appears frequently is that mystics realize this innate capacity through a process of releasing the hold of the ego and the conceptual system The contributors here look at mystical experience as it is manifested in a variety of religious and cultural settings including Hindu Yoga Buddhism Sufism and medieval Christianity Taken together the essays constitute an important contribution to the ongoing debate about the nature of human consciousness and mystical experience and its relation to the social and cultural contexts in which it appears
