Not many people think of Chile as a hotbed of YouTube stardom Nobody told German Garmendia that though nor his nearly 30 million devoted fans Despite posting videos in Spanish Garmendia has created not one but two massively successful channels on YouTube His first was focused on variety and comedy while his second has shifted more toward gaming His playthrough videos feature his quick wit over the top reactions and some great gaming This unique book explores his rise to fame the

difficulties of staying on top and how Garmendia has become a household name **Netflix, Dark Fantastic Genres and Intergenerational Viewing** Djoymi Baker, Jessica Balanzategui, Diana Sandars, 2023-07-04 Focusing on Netflix's child and family orientated platform exclusive content this book offers the first exploration of a controversial genre cycle of dark science fiction horror and fantasy television under Netflix's Family Watch Together TV tag. Using a ground breaking mix of methods including audience research, interface and textual analysis the book demonstrates how Netflix is producing dark family telefantasy content that is both reshaping child and family friendly TV genres and challenging earlier broadcast TV models around child appropriate family viewing. It illuminates how Netflix encourages family audiences to watch together through intergenerational dynamics that work on and offscreen. The chapters in this book explore how this Netflixication of family television developed across landmark examples including *Stranger Things*, *A Series of Unfortunate Events*, *The Dark Crystal: Age of Resistance* and even *Squid Game*. The book outlines how Netflix is consolidating a new dark family terrain in the streaming sector which is unsettling older concepts of family viewing leading to considerable audience and critical confusion around target audiences and viewer expectations. This book will be of particular interest to upper level undergraduates, graduates and scholars in the fields of television studies, screen genre studies, childhood studies and cultural studies.

Parenting at the Intersections Jaya Ramesh, Priya Saaral, 2024-01-16 This is an invaluable, nuanced and deeply needed guide to parenting diverse children as we move together toward a future in which all brains and bodies are supported and belong. Jessica McCabe, *How to ADHD: A necessary, engaging, educational and eye-opening perspective not often found about parenting children of color with neurodivergence*. It's also a powerful call to action to make parenting a form of disruption to oppressive systems and people. Library Journal Starred Review: What if parenting were an act of social justice? In this part story telling, part self-inquiry book, authors and therapists Jaya Ramesh and Priya Saaral situate parenting children of color with neurodivergence within the context of various interlocking systems of oppression including settler colonialism, White supremacy, ableism and capitalism. These intersections engender isolation and loneliness. Using the voices of parents on the front lines and other experts, *Parenting at the Intersections* offer an invitation to parents to slow down and reflect on their own parenting journeys. When parents can be given space to listen to their own voices to connect with their children and find community with others, they can find the most radical ways to disrupt systems of oppression.

Narrative Design for Mobile and Live Games Valentina Tamer, 2023-12-12 This is a comprehensive guidebook for long term storytelling in mobile games and games as a service, also known as live games. This book formalizes creative techniques of game writing and narrative design for a platform and revenue model that has shown drastic growth and changes over the past few years. The unique challenges of mobile games and live games are also increasingly relevant across the whole games industry. With hybrid consoles such as the Nintendo Switch, cloud gaming and cross platform titles, the lines between mobile and console have begun to blur. Additionally, many games now offer live support to extend player engagement. This book starts with an

introduction to narrative design and the world of mobile games followed by a deep dive into open ended and seasonal storytelling. Besides the creative aspect of development it covers areas of production such as documentation, collaboration and monetization. To illustrate its solutions it uses examples from video games and other media specifically screenwriting for TV shows. This book will be of great interest to all game narrative and writing professionals working on mobile and live games.

Gaming and Extremism Linda Schlegel, Rachel Kowert, 2024-03-21. Curating Community Collections Mary Schreiber, Wendy K. Bartlett, 2024-01-25. Begins where diversity audits end, informing and supporting academic, school and public librarians in the quest to embed diversity, equity and inclusion in a meaningful and sustainable manner throughout collections, policies and practices. A primary question for many librarians, directors and board members is how to evaluate diversity in a collection on an ongoing basis. Curating Community Collections provides librarians with the tools they need to understand the results of diversity audits and to formulate a reasonable, achievable plan for increasing diversity, equity and inclusion not only in the collection itself but also in library collection policies and practices. Information on ways to make diversity, equity and inclusion part of a library's everyday workflow will help ensure the sustainability of these principles. Mary Schreiber and Wendy Bartlett teach readers how to increase the number of diverse materials in their collections and make them more discoverable to library patrons through the implementation of a community collections program. Stories from librarians around the United States and Canada who are auditing and improving the diversity of their collections add broad, scalable perspectives for libraries of any size, budget and mission. Action steps provided at the end of each section offer a practical road map for all types of libraries to curate a diverse, equitable and inclusive community.
