Algorithms of Anxiety Anthony Elliott,2024-07-09 Machine learning algorithms are widely presumed to herald a world in which the crippling

burdens of anxiety can be left behind. The digital revolution promises a brave new world where individuals, communities and organizations can at last take control of the future, anticipating, designing and commanding the future possibly even with mathematical exactitude. Yet paradoxically, algorithms have unleashed widespread fears and forebodings about the impact of digital technologies. Whether it's worries about unemployment, distress about social media's harmful effects on teenagers or the fear of intrusive digital surveillance, we live in an age of turbo charged anxiety where the prophecies of algorithms are increasingly enmeshed with fundamental disruption and anxieties about the future. In this book, Anthony Elliott examines how machine learning algorithms are not only transforming global institutions but also rewriting our personal lives. He tells this story through a wide ranging analysis which takes in ChatGPT, Amazon, the Metaverse, Martin Ford, Netflix, Uber, Bernard Stiegler, Squid Game, Kate Crawford, LaMDA, Byung Chul Han, autonomous drones, Jean Baudrillard and the automation of warfare. Questioning why people often assume that they need to adopt new technologies in order to lead fulfilling lives, Elliott argues that people may be as much entranced as inspired by their outsourcing of personal decision making to smart machines.

Music in Esports Eulalia Febrer-Coll, 2025-07-21. This book invites the reader to expand their idea of esports as an independent niche and consider it an integral part of a growing multi and transmedia ecosystem that includes the global entertainment industry where music plays an essential role. The music present in and around esports games is an integral part of how they are communicated and mediated and as such holds a central role in binding their narratives cohesively and coherently to appeal to their audiences. Popular music theory is placed at the foundation of the issues raised in the chapters as it is taken as a cornerstone for linking the esports international scene with the music industry. This text uses specific case studies from popular esports to support and illustrate each chapter, including League of Legends, Counter Strike and Fortnite. This book will be of great interest to researchers and students in the fields of esports game design and development, musicology and media studies.

Metaverse Communication Prasanna Bhattathiri, 2025-01-03. Metaverse Communication: Redefining Connections delves into the transformative potential of the Metaverse. This book explores whether the Metaverse can truly become a space for life changing experiences and interactions surpassing the current Internet. We define the Metaverse as a shared 3D virtual space that combines elements of the digital and physical worlds. This book examines whether technology can overcome infrastructure challenges, corporate greed and physical limitations to create a continuously shared virtual universe. We highlight key industry insights such as Facebook's rebranding to Meta and its significant investment in the Metaverse. With predictions like Bloomberg's estimate of an 800 billion Metaverse market by 2024, the book discusses the enormous economic and social potential of this new frontier. Metaverse Communication: Redefining Connections provides a clear, authoritative guide to understanding the Metaverse, its applications and its implications for the future of communication and interaction.

Marketing for Tourism, Hospitality & Events Simon Hudson, Louise Hudson, 2023-12-04. This cutting edge and engaging student textbook now in a second edition provides

essential coverage of marketing principles for Tourism Hospitality and Events with a strong focus on the increasing global and digital aspects of these industries. The text has been updated to include all the latest industry developments, practice and research including the lasting impacts of Covid 19 on consumer behaviour and in turn the tourism hospitality and events industries as well as the accelerated role of digitalization and use of new technologies such as artificial intelligence and the metaverse both of which are changing how people conceive of travel and experiences whilst blurring the boundaries between what is real and virtual. Popular chapter features such as Lessons from a Marketing Guru featuring personal insights from real world practitioners and Digital Spotlights which highlight the ways in which technology has transformed tourism hospitality and events and Marketing in Action case studies continue to help bring the text to life through fun and relevant examples from a wide variety of organizations and regions across the globe. This textbook is essential reading for any university or college course looking at marketing in relation to tourism hospitality and events. Simon Hudson is a tourism and hospitality professor at the University of South Carolina. Louise Hudson is a freelance travel journalist writing for a host of newspaper travel sections, online tourism sites and her own blog. 2022-03-01 Gartner 68
