Proceedings of the 2022 International Conference on Business and Policy Studies Xiaolong Li, Chunhui Yuan, Ivoslav Ganchev, 2022-09-26 This proceedings volume contains papers accepted by the 2022 International Conference on Business and Policy Studies CONF BPS 2022 which are carefully selected and reviewed by professional reviewers from corresponding research fields and the editorial team of the conference. This volume presents latest research achievements, inspirations and applications in applied economy, finance, enterprise management, public administration and policy studies. CONF BPS hopes this volume could be inspiring and of academic value. Business and policy studies both are heated research topics and are related to multiple fields. Held by Eliwise Academy, CONF BPS aims at bringing together intellectuals from related fields including applied economy, finance and public administration for academic exchange. Its goal is to serve as an international platform for researchers to present latest research progress, share ideas and inspirations and exchange experience. Through more academic communication and exchange, this conference hopes to promote international corporation and joint initiatives in relevant fields. This volume will be of interest to researchers, academics, professionals and policy makers in the field of business, economics, management and policy studies.

Access Nippon, 1992 **Ludicrous** Edward

Niedermeyer, 2019-08-20 Tesla is the most exciting car company in a generation but can it live up to the hype? Tesla Motors and CEO Elon Musk have become household names, shaking up the staid auto industry by creating a set of innovative electric vehicles that have wowed the marketplace and defied conventional wisdom. The company's market valuation now rivals that of long-established automakers and, to many industry observers, Tesla is defining the future of the industry. But behind the hype, Tesla has some serious deficiencies that raise questions about its sky-high valuation and even its ultimate survival. Tesla's commitment to innovation has led it to reject the careful, zero-defects approach of other car manufacturers, even as it struggles to mass-produce cars reliably and with minimal defects. While most car manufacturers struggle with the razor-thin margins of mid-priced sedans, Tesla's strategy requires that the Model 3 finally bring it to profitability, even as the high-priced Roadster and Model S both lost money. And Tesla's approach of continually focusing on the future, even as commitments and deadlines are repeatedly missed, may ultimately test the patience of all but its most devoted fans. In *Ludicrous*, journalist and auto-industry analyst Edward Niedermeyer lays bare the disconnect between the popular perception of Tesla and the day-to-day realities of the company and the cars it produces. Blending original reporting and never-before-published insider accounts with savvy industry analysis, Niedermeyer tells the story of Tesla as it's never been told before, with clear eyes, objectivity and insight.
