(*Chromecast User Guide*): Lisa Thompson,2015-01-06 The Google Chromecast is an amazing device It can allow you to watch
an unlimited number of on on demand videos from YouTube Google Play TV but on your television instead of your computer
screen If you have been spending money on expensive premium cable services in the past the Chromecast can even help to
reduce these costs by providing you with other options However there is one problem that you may run into if you own or are
considering owning a Chromecast Google provides very little documentation as to how this device works If the only thing you
want to do with your Chromecast is to watch a few videos from Hulu or Google Play then you can probably get by on learning
how to use the Chromecast solely from the information that Google provides on its website But what if you want to use
unofficial services such as the free versions of Hulu or Spotify Or what if you want to use your Google Chromecast to make
business presentations For another example what if you want to turn your computer into a wireless media server or share
your Android or iOS screen to your television If you want to use your Chromecast for more than just its basic functions you
will need a user s guide to do so Unfortunately though many Chromecast user s guides on the market are outdated and
employ complicated workarounds in cases where they are not necessary Because of this problem I have created a
Chromecast user s guide that provides the simplest answers to any Chromecast issue and that is completely up to date Here
are just some of the topics covered in Chromecast Guide Google Chromecast Tips Tricks How to connect and set up your
Chromecast Factory resetting your Chromecast How to use your Chromecast to give presentations Using your Android or iOS
device as a remote control A complete description of the best services to use with your Chromecast such as Hulu Pandora
Radio Crackle and many others How to watch Hulu on your television without paying for the premium service How to listen
to Spotify music on your television or through your stereo system How to display web content on your television How to use
your television to mirror the screen of your smart phone How to use your computer as a wireless media server How to cast
music and video from the Kindle Fire How to configure Amazon Instant Video so that it will display on your television How to
use your smart phone to turn on your TV And many other topics that explain how to get the most out of your Chromecast Get
