**Is Your Doctor Keeping You Sick?** Dr Lenny Da Costa, 2023-01-05 We have an abundance of food but are malnourished. It's time to know why and correct it. Our food is our medicine but it is also our poison if we understand this and use it we can prevent chronic diseases like heart disease, diabetes, cancer, etc. and live a healthy life. Modern medicine has perhaps failed us in these times by overly relying on research presented by the big pharma companies and the recommendations or protocols for management derived from there. It has been ignoring tons of research available in teaching institutions across the world in many allied fields and basic medical sciences that can be used to reverse many ageing problems and chronic diseases. Thus the question *Is your doctor keeping you sick?* Today we can spot very early disturbances that can help us prevent chronic disease by doing the right lab investigations. Investigations that are available but not done as modern medicine does not know how to handle the results. Functional medicine is the way forward. It has helped me nurse thousands of patients back to good health over the last 15 years.
