Craftspeople and Designer Makers in the Contemporary Creative Economy Susan Luckman,Jane Andrew,2020-09-14 This open access book explores the experience of working as a craftsperson or designer maker in the contemporary creative economy The authors utilise evidence from the only major empirical study to explore the skills required and the challenges facing contemporary makers in an increasingly crowded marketplace Drawing upon 180 interviews with peak organisations established and emerging makers and four years of fieldwork across Australia this book offers a unique insight into the motivations informing those who seek to make an income from their craft or designer maker practice as well as the challenges and opportunities facing them as they do so at this time of renewed interest internationally in the artisanal and handmade Offering a rich and deep collection of real life experiences this book is aimed both at an academic and practitioner audience

I'm Sorry for My Loss Rebecca Little,Colleen Long,2024-09-24 A must read investigation of reproductive health under fire in Post Roe America I m Sorry for My Loss delves into the abyss of pregnancy loss a topic that is misunderstood and full of guilt and shame written with emotional resonance and humor by authors who have both been through it themselves Rebecca Little and Colleen Long childhood friends who grew up to be journalists enlighten readers on the deep sometimes mystifying history behind how we view pregnancy and loss including The hidden links that bind abortion miscarriage terminations for medical reasons and stillbirth together How the history of pregnancy loss in America continues

to affect our view of it today Recent cultural and political changes that are leading to dangerous medical care for women And much more The authors interviewed more than one hundred people who have lost a pregnancy along with dozens of historians linguists midwives doctors and therapists to create a comprehensive work that examines pregnancy loss from every angle from the inadequacy of the words we use to discuss pregnancy loss to the legal and medical maelstrom and the ways in which parents have created their own mourning rituals in a culture that lacks them I m Sorry for My Loss is an approachable and deeply readable book about a traditionally unapproachable topic For those who have experienced loss the book aims to comfort but not pander For everyone else it is a valuable resource to understand this particularly painful and often private loss and why conversations around pregnancy loss and women s healthcare are vital for everyone *The New (Ab)Normal* Yossi Sheffi, 2020-10-01 Much has been written about Covid 19 victims how scientists raced to understand and treat the disease and how governments did or did not protect their citizens Less has been written about the pandemic s impact on the global economy and how companies coped as the competitive environment was upended In his new book *The New Ab Normal* MIT Professor Yossi Sheffi maps how the Covid 19 pandemic impacted business supply chains and society He exposes the critical role supply chains play in helping people governments and companies to manage the crisis The book draws on executive interviews pandemic media coverage and historical analyses Sheffi also builds on themes from his books *The Resilient Enterprise* 2005 and *The Power of Resilience* 2015 to enrich the narrative The author paints a compelling picture of how the Covid 19 virus is changing many facets of human life and what our post pandemic world might look like This must read book helps companies to redefine their business models and adjust to a fast evolving economic landscape The stage is set In Part 1 of the book *What Happened* the author looks at how companies fought to mend the global economic fabric even as the virus ripped more holes in it Part 2 *Living with Uncertainty* views the crisis through a supply chain risk management lens derived from Yossi Sheffi s previous books This perspective shows how companies create corporate immune systems to quickly recognize and manage large scale disruptions The ongoing pandemic is creating a new normal in life work and education covered in Part 3 *Adjustment Required* Consumer fears about the contagion as well as government mandates require businesses in industries such as retail hospitality entertainment sports and education to create safe zones for workers and customers Many elements of the book especially in Part 4 *Supply Chains for the Future* show how the virus accelerated preexisting trends in technology adoption China was the epicenter of the pandemic it also was the first nation to be disrupted and recover Part 5 of the book *Of Politics and Pandemics* explains why reports that companies are abandoning China in favor of other offshore manufacturing centers do not reflect reality Fundamentally *The New Ab Normal* is about businesses trying to create a better future in a time of extreme uncertainty a point emphasized in Part 6 *The Next Opportunities* The outlook is not necessarily gloomy The advance of technology is accelerating a trend that can level the playing field between small and large companies Nimble small businesses are using a growing array of off the shelf cloud

computing and mobile apps to deploy sophisticated technologies in their supply chains and customer interfaces The New Ab Normal Another new normal is working from home Remote working enables individuals to live anywhere and companies to recruit talent from anywhere Education especially higher education faces a major disruption and major opportunity that is likely to shake the high cost model of in person education in favor of online or hybrid education Regrettably the book recognizes one trend accentuated by Covid 19 the growing inequality and anticipates that the new normal will be more stratified

Accountable Warren Valdmantis, Michael O'Leary, 2020-08-18 Uses a combination of great stories and thoughtful analysis to suggest that we must find a way to change the purpose of our corporations if we are to build a society that works for all of us Rebecca M Henderson John Natty McArthur University Professor at Harvard University Fresh balanced highly readable and deeply informed John Pepper former Chairman and CEO of P G Thought provoking and insightful Accountable offers a pragmatic and original roadmap to transform capitalism into a system that s more inclusive sustainable and just Dr Rajiv J Shah President of The Rockefeller Foundation Capitalism is failing and the tools we are relying on to fix it corporate social responsibility divestment impact investing and government control are only making things worse Chevron boasts about the 50 million per year it spends on renewable energy whilst it spends 200 times that on oil exploration Goldman Sachs touts its 10 000 Women initiative but its board ranks 358th out of the Fortune 500 for gender diversity and women earn 55% less than men do on average By focusing on corporations rather than people we ve put our faith in empty trends and brand focused window dressing Why should those responsible for our current crisis be trusted to fix it In Accountable authors Michael O Leary and Warren Valdmantis offer a blueprint for everyone to take responsibility for using their economic power as consumers as investors as employees and as voters to trigger a fundamental shift away from an economy that is unethical unfair and destructive to our environment and institutions Their investigation cuts through the tired dogma of current economic thinking to reveal a hopeful truth if we can make our corporations accountable to a deeper purpose we can make capitalism both prosperous and good Trenchant and gripping this is an indispensable guide and call to action for citizens to take control of our economic power and hold corporations to a higher standard
