### **Digital Trademarks and Brands**

Rajeev Sachdev, 2025-10-28

Trademark disputes are a consistent feature of the digital legal landscape, appearing in connection with a range of successive technologies and platforms. This book presents a new adapted model for digital trademarks and trade practices, providing recommendations for the Uniform Domain Name Dispute Resolution Policy (UDRP) and extending a like process to platform trademark policies and complaint procedures, including e-commerce, marketplace, search, advertising, social media, mobile applications and Metaverse platforms. The proposed model addresses and greatly reduces legal uncertainties and the harm caused by problems for digital trademarks in such key areas as the following: use and place of use of marks, bad faith and abuse, confusion, unfair acts, trade practices or competition terms, policies and disclaimers, jurisdiction, territory and justification. The adapted model is informed by pertinent theories and concepts, select aspects of EU and US and other legal frameworks and existing policies. Ultimately, a uniform policy is recommended for each of the five platform types, in line with an adapted version of the UDRP based on recommendations through the model. It is applied in a way that provides a comprehensive, workable solution, fostering legal certainty. Actual text for the proposed adapted UDRP, as well as the uniform policies recommended for each type of platform, is provided with guidance for implementation. The book provides recommendations that can greatly enhance the resolution of trademark disputes of various kinds and on various platforms, in a more certain, cost effective and timely manner. Given that the complex, global environment of digital trademarks raises new issues not adequately addressed by legal frameworks, this book will be of inestimable value to digital platforms, e-commerce, search, advertising, social media, mobile app, Metaverse, etc., website operators, platform and website lawyers, various stakeholders in the UDRP, arbitrators, panellists, online dispute resolution
