## **McSweeney's Issue 16 McSweeney's Quarterly Concern:**

*McSweeney's, Issue 16* McSweeney's Books, 2005-06 Now in its 16th issue McSweeney's has grown to be one of the country's best and largest circulation literary journals committed to finding new voices publishing work of gifted but underappreciated writers and pushing the literary form forward at all times *The Johns Hopkins Guide to Digital Media* Marie-Laure Ryan, Lori Emerson, Benjamin J. Robertson, 2014-04-15 The first systematic comprehensive reference covering the ideas, genres, and concepts behind digital media. The study of what is collectively labeled New Media, the cultural and artistic practices made possible by digital technology, has become one of the most vibrant areas of scholarly activity and is rapidly turning into an established academic field with many universities now offering it as a major. *The Johns Hopkins Guide to Digital Media* is the first comprehensive reference work to which teachers, students, and the curious can quickly turn for reliable information on the key terms and concepts of the field. The contributors present entries on nearly 150 ideas, genres, and theoretical concepts that have allowed digital media to produce some of the most innovative intellectual, artistic, and social practices of our time. The result is an easy-to-consult reference for digital media scholars or anyone wishing to become familiar with this fast-developing field. **Teaching Comics and Graphic Narratives** Lan Dong, 2014-01-10 The essays in this collection discuss how comics and graphic narratives can be useful primary texts and learning tools in college and university classes across different disciplines. There are six sections: American Studies, Ethnic Studies, Women's and Gender Studies, Cultural Studies, Genre Studies, and Composition, Rhetoric, and Communication. With a combination of practical and theoretical investigations, the book brings together discussions among teacher-scholars to advance the scholarship on teaching comics and graphic narratives and provides scholars with useful references, critical approaches, and particular case studies. **McSweeney's** Dave Eggers, 2006 Called a three-part exercise in inspired restriction of author of content and of form, this collection features a section of poetry, a list of unused story premises by F. Scott Fitzgerald, and a glimpse into the legendary Oulipians by the president of France. **McSweeney's 16**, 2005 **American Literature in Transition, 2000-2010** Rachel Greenwald Smith, 2017-12-28 *American Literature in Transition 2000-2010* illuminates the dynamic transformations that occurred in American literary culture during the first decade of the twenty-first century. The volume is the first major critical collection to address the literature of the 2000s, a decade that saw dramatic changes in digital technology, economics, world affairs, and environmental awareness. Beginning with an introduction that takes stock of the period's major historical, cultural, and literary movements, the volume features accessible essays on a wide range of topics, including genre fiction, the treatment of social networking in literature, climate change fiction, the ascendancy of Amazon and online booksellers, 9/11, literature, finance, and literature, and the rise of prestige television. Mapping the literary culture of a decade of promise and threat, *American Literature in Transition 2000-2010* provides an invaluable resource on twenty-first-century American literature for general readers, students, and scholars alike. **The Encyclopedia of Contemporary**
