## **Meadville Postcard History:**

**Route 6 in Pennsylvania** Kevin J. Patrick, Elizabeth Mercer Roseman, Curtis C. Roseman, 2017-05-29 Pennsylvania's mid 20th century Route 6 brought together appealing natural environments, historical events, and cultural landscapes. The eastern length of the route crosses an area featuring rolling mountains and tranquil valleys dotted by farms and towns. To the west, Route 6 traverses a more level landscape that also includes lakes. This book presents the 370-mile scenic drive as a destination in itself. It covers the secluded setting of northern Pennsylvania where Route 6 and its towns have experienced minimal changes associated with larger metropolitan regions and interstate highways. As a result, the mid 20th-century landscapes of Route 6 have lingered a little longer. The authors give the reader a peek of a past not entirely swept away.

**Williamsport's Millionaires' Row** Thad Stephen Meckley, 2005 Williamsport was once known as the lumber capital of the world, claiming to have more millionaires per capita living there than anywhere else in the world. Made fashionable by visionary Victorian-era entrepreneur Peter Herdic and his talented personal architect Eber Culver, Williamsport's West Fourth Street became the place to live and visit celebrities and socialites, including Annie Weightman Walker Penfield, the richest woman in the world in her day. These vintage postcards feature scenes varying from the lavish Victorian homes of the nouveau riche built from the spoils of the bustling lumbermills and offshoot industries to the resplendent houses of worship where the rich and the poor stood side by side. Williamsport's Millionaires' Row records the pinnacle of Williamsport's wealth and glory days, highlighting the homes of the Millionaires' Row National Register Historic District. [The Art of Stereography](#) Douglas Heil, 2017-03-02 Three-dimensional stereoviews were wildly popular in the mid 19th century. Yet public infatuation fueled highbrow scorn, and even when they fell from favor, critics retained their disdain. Thus a dazzling body of photographic work has unjustly been buried. This book explores how compelling images were made by carefully combining subject matter, composition, lighting, tonality, blocking, and depth. It draws upon the fine arts, the mass media, humanities history, and even geology. Throughout, overlooked photographers are celebrated, such as the one who found extraordinary visual parallels within nature, anticipating Cézanne and Seurat, or the one who refused to play favorites during a bitter war and found humanity on both sides, or the one who took a favorite American glen and found menace all about. Stereographers were actually more like film directors or television producers than large-format photographers; the best ones fused artistry with commercial appeal. *Along the Allegheny River* Charles E. Williams, 2006 The Allegheny River of western Pennsylvania and New York flows through a region rich in natural resources and human history. While the river is 320 miles long, the northern watershed district originates in Potter County, Pennsylvania, and joins the Clarion River near Parker, Pennsylvania. Along the Allegheny River, The Northern Watershed showcases over 200 vintage postcards of the river, its landscape, and its people. These captivating images chronicle over 200 years of history, from the French and Indian War to the timber and oil booms of
