## **Meaning Horses Biosocial Encounters:**

*The Meaning of Horses* Dona Davis, Anita Maurstad, 2016-03-17 The Meaning of Horses Biosocial Encounters examines some of the engagements or entanglements that link the lived experiences of human and non human animals The contributors discuss horse human relationships in multiple contexts times and places highlighting variations in the meaning of horses as well as universals of horsiness They consider how horses are unlike other animals and cover topics such as commodification identity communication and performance This collection emphasises the agency of the horse and a need to move beyond anthropocentric studies with a theoretical approach that features naturecultures co being and biosocial encounters as interactive forms of becoming Rooted in anthropology and multispecies ethnography this book introduces new questions and areas for consideration in the field of animals and society [Human-Horse Relations and the Ethics of Knowing](#)

Rosalie Jones McVey, 2023-03-31 This book explores how equestrians are highly invested in the idea of profound connection between horse and human and focuses on the ethical problem of knowing horses In describing how true connection with horses matters Rosalie Jones McVey investigates what sort of thing comes to count as a good relationship and how riders work to get there Drawing on fieldwork in the British horse world she illuminates the ways in which equestrian culture instils the idea that horse people should know their horses better Using horsemanship as one exemplary instance where truth holds ethical traction the book demonstrates the importance of epistemology in late modern ethical life It also raises the question of whether and how the concept of truth should matter to multispecies ethnographers in their ethnographic representations of animals [Naturekind](#)

Melissa Leach, James Fairhead, 2025-10-07 A new paradigm that integrates human and nonhuman communication and culture Are language and culture uniquely human justifying an exceptionalism that sets people apart from the rest of nature New discoveries in the biological sciences have challenged this assumption finding syntax symbolism and social learning beyond the human and identifying culture as a second inheritance system across the phyla from whales to insects and plants Biologists are constrained however by the mechanistic ways communication is understood In Naturekind Melissa Leach and James Fairhead address this impasse by extending insights from structural linguistics social semiotics anthropology and Indigenous theorization into wider life integrating them with new biological findings to develop a new structural biosemiotics paradigm Leach and Fairhead argue that such a paradigm can provide a unified theory of meaning making across all of nature or naturekind allowing new theorisation about human and nonhuman communication and culture They examine people's communicative encounters with chickens horses bees bats and plants and with assemblages of living and nonliving entities forests seas soils and cities Marrying the new biology with the structural social sciences they contend provides powerful insights for living well with wider life on a shared planet and transforming political relations [Cat People: Human-Cat Interrelatedness in the Cat Fancy](#)

Emily Stone, 2022-07-31 This book examines the social world of the cat fancy or the leisure activity of breeding and exhibiting pedigree cats Based on

multispecies ethnographic fieldwork and interviews in the United Kingdom it explores the process and performance of exhibiting cats at shows the breeding practices and discourses integral to the creation of pedigree breeds and the relations that these practices generate between human guardians the pedigree cat population and non pedigree cats Through observation with cat fanciers and their interactions with their cats the author investigates the social dynamics and relationships that form within the fancy considering the interconnections between biopower and eugenics in pedigree breeding the practices of pet keeping and the complexities of more than human care and the implications of involvement for the cats themselves As such Cat People Human Cat Interrelatedness in the Cat Fancy will appeal to scholars from across the social sciences and humanities interested in human animal interactions multispecies leisure anthrozoology and more than human care

**(Un)Stable Relations: Horses, Humans and Social Agency** Lynda Birke,Kirrilly Thompson,2017-12-12

This original and insightful book explores how horses can be considered as social actors within shared interspecies networks It examines what we know about how horses understand us and how we perceive them as well as the implications of actively recognising other animals as actors within shared social lives This book explores how interspecies relationships work using a variety of examples to demonstrate how horses and people build social lives Considering horses as social actors presents new possibilities for improving the quality of animal lives the human condition and human horse relations

**Equine Cultures in Transition** Jonna Bornmark,Petra Andersson,Ulla Ekström von Essen,2019-01-10 Societal views on animals are rapidly changing and have become more diversified can we use them for our own pleasure and how should we understand animal agency These questions asked both in theoretical discourses and different practices are also relevant for our understanding of horses and the human horse relation Equine Cultures in Transition stands as the first volume to bring together ethical questions of the new field of human horse studies For instance what sort of ethics should be developed in relation to the horse today an egalitarian ethics or an ethics that builds upon asymmetrical relations How can we understand the horse as a social actor and as someone who just like the human being becomes through interspecies relations Through which methods can we give the horse a stronger voice and better understand its becoming These questions are not addressed from a medical or ethological perspective focused on natural behaviour but rather from human acknowledgement of the horse as a sensing feeling acting and relational being and as a part of interspecies societies and relations Providing an introductory yet theoretically advanced and broad view of the field of post humanism and human animal studies Equine Cultures in Transition will appeal to students and researchers interested in fields such as human animal studies political sociology animals and ethics animal behaviour anthropology and sociology of culture It may also appeal to riders and other practitioners within different horse traditions

**A Geography of Horse-Riding** Cheryl Nosworthy,2014-08-11 This book presents an in depth qualitative exploration of the practice of horse riding by disabled and non disabled riders and their horses Situated as part of

an affective turn within human geography creative and original use is made of poststructuralist theory to bring together animal studies and disability studies in order to decentre the human as we think about the social Eighteen months of multi sited performance ethnography on the hoof were conducted with riders recruited from local riding schools an internet forum and three Riding for the Disabled Association RDA groups The study employed various methods including diary keeping participant observation and video recording of riding activities in order to capture moments of horse human relating Through these methods the embodied expressions of horses are taken seriously as demonstrative of their individual thoughts and intentions

**Human-Animal Relationships in Equestrian Sport and Leisure** Katherine Dashper,2016-10-04

Riding training and caring for horses are visceral experiences that require the immersion of both body and mind This book provides an in depth understanding of human horse relationships and interactions as embodied in equestrian sport and leisure As a closely focused ethnographic study of the horse world it explores the key themes of partnership and collaboration in human horse communication the formation of individual and collective identities performed through involvement in the horse world and human horse interaction as an embodied way of being This book argues that encounters between humans and horses can reveal the ways that human society has been and continues to be structured through intersection with nonhuman others Equestrian sport and leisure provides an apt context for considering how such concepts of interspecies communication and collaboration are negotiated managed mis understood and performed resulting in a uniquely embodied way of knowing and being in the world Human Animal Relationships in Equestrian Sport and Leisure is fascinating reading for anyone interested in equestrianism human animal studies theories of embodiment the sociology of sport or sport and social theory

**The Relational Horse** Gala Argent,Jeannette Vaught,2022-04-19 Human horse relationships take the central place in this edited collection examining the horse s perspective by asking How are human equine relationships communicated enacted understood encouraged and restricted The contributors apply varied disciplinary methods as they emphasize comprehending horses not solely in terms of their functional uses but also as impactful participants in relationships whether more or less equally By exploring the who of horses The Relational Horse offers a better understanding of horses lived experiences and interests within the worlds they share with humans and a way forward for human equine studies that more equitably represents the horse in those shared worlds

**I Am Equus** Duaa Anwar,2010-01-27 Have you ever felt there was more to your horse than most people presume If so you were probably right What we take for granted from our horses has long been dismissed as simple instinct but horses have the capacity for complex emotions intelligence and a consciousness not commonly accepted as a trait of the animal kingdom Horses have demonstrated human traits such as humor and compassion for as long as we have shared the earth and it is up to us to figure out what we have in common to improve our communication skills with them In I Am Equus youll get to know horses that have demonstrated amazing trust survived against all odds formed lifelong friendships made people laugh and taught others inspirational life lessons Some have even

saved lives At last equus is presented in his true intellectual and emotional potential **Human-Horse Relationships** Lynda Birke,Kirrilly Thompson,2017-12-15 This original and insightful book explores how horses can be considered as social actors within shared interspecies networks It examines what we know about how horses understand us and how we perceive them as well as the implications of actively recognising other animals as actors within shared social lives This book explores how interspecies relationships work using a variety of examples to demonstrate how horses and people build social lives Considering horses as social actors presents new possibilities for improving the quality of animal lives the human condition and human horse relations

**Encountering the Other** Hana Gartner,2017 This thesis asks how and why a serendipitous and spontaneous personal encounter with a being from another species created an ongoing bond Through the lens of three intersecting disciplines environmental studies animal behaviour and health science I explore how the horse over time has gone from warrior and labourer to serving humans as teacher and therapist Much of the existing literature extols the benefits of human animal interaction HAI reinforcing an intuitive instinct that animals are good for humans However researchers still cannot explain the mechanisms through which these benefits are delivered This study examines the correlation between horse and human heart rates recorded on portable activity trackers during equine assisted learning sessions We found no correlation of heart rate variability between humans and horses With little available empirical evidence and mixed outcomes researchers are unable to make conclusive statements about the beneficial effects of HAI in the long term

**Equine Landscapes of Interspecies Care** Nora Schuurman,Alex Franklin,2024-11-07 This book focuses on the spaces and practices of caring for horses explored in a series of case studies set across the equine lifespan For horses everyday practices of care as well as ever changing understandings of what is good care directly shape their living conditions and lives with humans In this book questions of animal ethics and welfare are approached in a tangible way by exploring the relationships and practices of interspecies care across a range of different spaces including horse yards training grounds farms rescue centres and the street The chapters illuminate the ways in which interspecies care ties horses to human society and culture addressing care practices in different stages of the equine life cycle Through a unique set of case studies addressing issues such as training working rescue aging and death the book offers a clear overview of how humans shape the lifespan of animals living under their care It simultaneously foregrounds the agency of animals in this process and how such agency is interpreted and responded to by humans With its theoretically solid analysis of rigorous empirical study the book answers the need to understand human connection to the nonhuman world within the everyday practices and spaces of contemporary society and culture
