Mechademia 2 Networks Of Desire:

Networks of Desire Frenchy Lunning, Japan's pop culture once believed unexportable is now hitting the shores of other nations like a tsunami. In North America young fans consume vast amounts of manga and anime while academics increasingly study the entire J-pop phenomenon to understand it. One community has passion while the other has discipline and what has been lacking is a bridge between the two. Mechademia is the bridge and with a name like that how can one go wrong. So why wait? Hop in your giant mobile suit and stomp down to the local real or virtual bookstore to purchase a copy right now. Frederik L. Schodt, author of *Manga: The World of Japanese Comics*, *Networks of Desire* the second volume in the Mechademia series, an annual forum devoted to critical and creative work on Japanese anime, manga and the fan cultures that have coalesced around them, explores the varieties of desire that structure and influence much of contemporary anime and manga in manifestations that range from the explicitly sexual to more sublimated text and imagery. Collecting original essays by scholars, artists and fans, *Networks of Desire* considers key issues at play in a Japanese society increasingly uncertain of its place in a globalized world from idealized representations of same-sex desire in such shōjo manga girls' comics as *The Rose of Versailles* to fan fiction inspired by the gender-switching manga *Ranma* to desire in otaku communities. Deftly weaving together desire and discourse, Mechademia 2 illuminates the techno-carnal fantasies, animalistic consumption, political nostalgia and existential hunger underlying the most popular and influential expressions of Japanese popular culture today. Lent and Lorna Fitzsimmons is an interdisciplinary study of popular culture practices in Asia including regional and national studies of Japan, China, South Korea and Australia. The contributors explore the evolution and intersection of popular forms: gaming, manga, anime, film, music, fiction, YouTube videos and explicate the changing cultural meanings of these media in historical and contemporary contexts. At this study's core are the roles popular culture plays in the construction of national and regional identity. Common themes in this text include the impact of new information technology, whether it be on gaming in East Asia, music in 1960s Japan or candlelight vigils in South Korea, hybridity of old and new versions of the Chinese game *Wei Qi* of online and hand-held gaming in South Korea and Japan that developed localized expressions or of United States culture transplanted to Japan in post-World War II leading to the current otaku fan-boy culture and the roles that nationalism and grassroots and
