**Rhetoric, Economy and the Technologies of Activist Delivery** James

Ridolfo, 2005 JAC, 2005 **Landscapes and Learning** Margaret Somerville, Kerith Power, Phoenix de Carteret, 2009

Places are made after their stories. Just as place names describe complex and conflicted place making aspirations so with all marks associated with the marking of places tracks the symbolic representation of these in song, dance and poetic speech. Indeed all the technologies that join up distances into narratives they all inscribe the earth's surface with the forms of stories. Of course these are not the same as the foundational myths of imperial cultures whose aim is to displace any prior discourse of place making. They are stories of and as journeys, passages in a double sense constitutionally incomplete because they always await their completion in the act of crossing over or meeting which of course is endless. Paul Carter Landscapes and Learning maps some of these stories and passageways to open up new place making possibilities. The book uses the lens of
