Multiple Identities Migrants Ethnicity And Membership:

Multiple Identities Paul Spickard, 2013-04-12 In recent years Europeans have engaged in sharp debates about migrants and minority groups as social problems. The discussions usually neglect who these people are, how they live their lives, and how they identify themselves. *Multiple Identities* describes how migrants and minorities of all age groups experience their lives and manage complex, often multiple identities which alter with time and changing circumstances. The contributors consider minorities who have received a lot of attention, such as Turkish Germans, and some who have received little, such as Kashubians and Tartars in Poland and Chinese in Switzerland. They also examine international adoption and cross-cultural relationships and discuss some models for multicultural success. [The Life and Impact of Phil Parshall](#) Kenneth

Nehrbass, Mark Williams, 2021-06-15 *Missions Begins with Love* Being a witness for Jesus in Muslim contexts is often difficult, complicated, and even discouraging. Over the past forty years, Phil Parshall, a leading authority on Muslim outreach, has demonstrated that making friends with Muslims, whether in the West or abroad, is where our witness usually begins. Brother Phil and his wife Julie were missionaries in Bangladesh for more than twenty years and later worked among Muslims in the Philippines. During his tenure as a missionary leader, Parshall authored a dozen books that helped shape current missiological perspectives about Muslim outreach. In this volume, the only edited work dedicated to exploring Phil Parshall's legacy, seven respected missiologists interact with those ideas. While all the contributors to this book have been inspired by Parshall's life and work, some of them believe that Parshall's methods of contextualization could have been taken even further. They ponder: How can we further remove obstacles to following Jesus? How do we navigate the fine lines between Muslim cultures and Muslim religious ideas? What cultural and social aspects of Muslim life could cross-cultural workers adopt when living among Muslims? Here they share some of their victories and challenges, encouraging Christian workers to press ahead on paths of outreach to Muslims that are fitting for the twenty-first century context. **Qualitative Research in European Migration**

Studies Ricard Zapata-Barrero, Evren Yalaz, 2018-06-19 This open access book covers the main issues, challenges, and techniques concerning the application of qualitative methodologies to the study of migration. It discusses theoretical, epistemological, and empirical questions that must be considered before, during, and after undertaking qualitative research in migration studies. It also covers recent innovative developments and addresses the key issues and major challenges that qualitative migration research may face at different stages, i.e., crafting the research questions, defining approaches, developing concepts and theoretical frameworks, mapping categories, selecting cases, dealing with concerns of self-reflection, collecting and processing empirical evidence through various techniques, including visual data, dealing with ethical issues, and developing policy research dialogues. Each chapter discusses relative strengths and limitations of qualitative research. The chapters also identify the main drivers for qualitative research development in migration studies. It is a unique volume as it brings together a multidisciplinary perspective as well as illustrations of different issues derived from the research.

Psychosocial Stress in Immigrants and in Members of Minority Groups as a Factor of Terrorist Behavior M. Finklestein, K. Perspectives on Race, Ethnicity, and Religion Valerie Martinez-Ebers, Manochehr Dorraj, 2010 This reader is an introduction to the relevant history current issues and dynamics of select minority groups in the United States While previously written books on these topics usually confine their group coverage to African Americans Hispanics Asians and Pacific Islanders and American Indians this volume expands the number of groups examined to include those previously noted plus Jewish and Muslim Americans First the significance of globalization on individual group and national identity is examined Then the social impact of immigration and the common experiences of immigrants are considered Later chapters review the historical legal and political experiences of each aforementioned group as well as their attitudes and behaviors The two fold objective of the book is to provide students with the prerequisite information to evaluate the importance of race ethnicity and religion for understanding the outcomes of American politics in particular to help them see how the structure and operation of our political system sometimes obstructs the efforts of these groups to gain the full benefits of freedom and equal treatment promised under the American Constitution One of the advantages of this reader is that the contributing authors belong to the minority groups that they write about but they also are all credentialed experts in their field of expertise with advanced degrees in political science sociology history or religion Thus they are able to draw upon the experiences of a group of people that they are intimately familiar with while at the same time using the rational systematic approach of social scientists

Transglobal Sounds João Sardinha, Ricardo Campos, 2016-09-15 Through a transnational comparative and multi level approach to the relationship between youth migration and music the aesthetic intersections between the local and the global and between agency and identity are presented through case studies in this

book *Transglobal Sounds* contemplates migrant youth and the impact of music in diaspora settings and on the lives of individuals and collectives engaging with broader questions of how new modes of identification are born out of the social cultural historical and political interfaces between youth migration and music Thus through acts of mobility and environments lived in and in between this volume seeks to articulate between musical transnationalism and sense of place in exploring the complex relationship between music and young migrants and migrant descendant s everyday lives *Chinese Identities, Ethnicity and Cosmopolitanism* Kwok B. Chan,2005 This is a study of ethnicity hybridity and cosmopolitanism among Chinese migrants Using detailed examples the author analyzes the issues with new perspectives identifying flaws in classic sociology and rethinking assumptions about identity and selfhood *Americanizing the West* Frank Van Nuys,2002 The arrival of immigrants on America s shores has always posed a singular problem once they are here how are these diverse peoples to be transformed into Americans The Americanization movement of the 1910s and 1920s addressed this challenge by seeking to train immigrants for citizenship representing a key element of the Progressives search for order in a modernizing America Frank Van Nuys examines for the first time how this movement in an effort to help integrate an unruly West into the emerging national system was forced to reconcile the myth of rugged individualism with the demands of a planned society In an era convulsed by world war and socialist revolution the Americanization movement was especially concerned about the susceptibility of immigrants to un American propaganda and union agitation As Van Nuys convincingly demonstrates this applied as much to immigrants in the urbanizing and industrializing West as it did to those occupying the ethnic enclaves of cities in the East In *Americanizing the West* he tells how hundreds of bureaucrats educators employers and reformers participated in this movement by developing adult immigrant education programs and how these attempts contributed more toward bureaucratizing the West than it did to turning immigrants into productive citizens He deftly ties this history to broader national developments and shows how Westerners brought distinctive approaches to Americanization to accommodate and preserve their own sense of history and identity Van Nuys shows that although racism and social control agendas permeated Americanization efforts in the West Americanizers sustained their faith in education as a powerful force in transforming immigrants into productive citizens He also shows how some westerners especially in California believed they faced a racial frontier unlike other parts of the country in light of the influx of Hispanics and Asians so that westerners became major players in the crafting of not only American identity but also immigration policies The mystique of the white pioneer past still maintains a powerful hold on ideas of American identity and we still deal with many of these issues through laws and propositions targeting immigrants and alien workers *Americanizing the West* makes a clear case for regional distinctiveness in this citizenship program and puts current headlines in perspective by showing how it helped make the West what it is today **Urban Anthropology** ,1977 *Immigration and Identity* Dov Waxman,1997 *Sociological Abstracts* Leo P.
