Mumbai Mirror:

Infrastructural Lives Stephen Graham, Colin McFarlane, 2014-10-10 *Infrastructural Lives* is the first book to describe the everyday experience and politics of urban infrastructures. It focuses on a range of infrastructures in both the global South and North. The book examines how day to day experience and perception of infrastructure provides a new and powerful lens to view urban sustainability politics, economics, cultures, and ecologies. An interdisciplinary group of leading and emerging urban researchers examine critical questions about urban infrastructure in different global contexts. The chapters address water, sanitation, and waste politics in Mumbai, Kampala, and Tyneside; analyse the use of infrastructure in the dispossession of Palestinian communities; explore the pacification of Rio's favelas in the run up to the 2014 World Cup; describe how people's bodies and lives effectively operate as infrastructure in many major cities; and also explores tentative experiments with low carbon infrastructures. These diverse cases and perspectives are connected by a shared sense of infrastructure not just as a thing, a system, or an output, but as a complex social and technological process that enables or disables particular kinds of action in the city. *Infrastructural Lives* is crucial reading for academics, researchers, students, and practitioners in urban studies globally.

The Right to Information: A Brief Overview Pushkal Kumar Pandey, 2020-08-14 The Right to Information Act 2005 is a golden piece of legislation which was enacted to ensure transparency and accountability in governance of the country. After independence, no legislation has yielded such a faster result as has been yielded by this Act. It has given a kind of weapon in the hands of citizens to use against corruption and red tapism prevalent in bureaucracy. This Act has revolutionary impact on the official work culture in our government and public enterprises. Each day this Act is discovering untraveled paths and piercing new veils in administration. It has widespread effect in a very short span of time without much effort of executive or bureaucracy. Due to this Act, various hidden facts of vital importance about administration are revealed which were still considered sacrosanct and protected from disclosure. Today, no one knows which fact is going to be unveiled tomorrow. Therefore, this book is useful and helpful for its readers to understand the importance of the Right to Information Act 2005.

From Exploitation to Empowerment Asha Bajpai, 2018-09-14 This book presents the outcomes of a field action project at the Tata Institute of Social Sciences (TISS) Project Chhunauti. English translation of Project Challenge, focused on a group of intellectually disabled orphan children who were survivors of abuse, exploitation, and neglect, and describes their journey toward empowerment. It offers a vision and a reproducible, adaptable model for rehabilitation that can foster the social reintegration of intellectually disabled orphans at institutions. As the implementation of laws is especially important for vulnerable groups, the book also outlines a socio-legal approach that not only impacts the children directly but can also bring about policy level reforms. Project Chhunauti was born out of the need to explore options for these children and to set standards for their care, protection, rehabilitation, and social reintegration. The core objectives of the project were to provide support and services including counseling, education, life skills, and vocational skills training, as well as medical and

psychiatric support to help them overcome the trauma of abuse and exploitation Its further goal was to train the staff of state run homes and state authorities helping them prepare and implement care plans and rehabilitation combat child sexual abuse and malnutrition employ positive disciplining and better understand disabilities The book also draws on the Project team s experiences of rolling out the replication process in Maharashtra This book highlights the role of the courts media and other stakeholders in the journey towards empowerment and justice It is a combination of social work methods application and implementation of law and legal advocacy as well as best practices for protecting children s rights and developing rehabilitation and re integration projects for intellectually disabled orphaned children in India The interventions detailed here provide a reproducible adaptable model of intervention for children in institutional care across the country *Beyond the Networked City* Olivier Coutard,Jonathan Rutherford,2015-12-14 Cities around the world are undergoing profound changes In this global era we live in a world of rising knowledge economies digital technologies and awareness of environmental issues The so called modern infrastructural ideal of spatially and socially ubiquitous centrally governed infrastructures providing exclusive homogeneous services over extensive areas has been the standard of reference for the provision of basic essential services such as water and energy supply This book argues that after decades of undisputed domination this ideal is being increasingly questioned and that the network ideology that supports it may be waning In order to begin exploring the highly diverse fluid and unstable landscapes emerging beyond the networked city this book identifies dynamics through which a break with previous configurations has been operated and new brittle zones of socio technical controversy through which urban infrastructure and its wider meaning are being negotiated and fought over It uncovers across a diverse set of urban contexts new ways in which processes of urbanization and infrastructure production are being combined with crucial sociopolitical implications through shifting political economies of infrastructure which rework resource distribution and value creation through new infrastructural spaces and territorialities which rebundle socio technical systems for particular interests and claims and through changing offsets between individual and collective appropriation experience and mobilization of infrastructure With contributions from leading authorities in the field and drawing on theoretical advances and original empirical material this book is a major contribution to an ongoing infrastructural turn in urban studies and will be of interest to all those concerned by the diverse forms and contested outcomes of contemporary urban change across North and South *The Masterpieces & ABC Series* Osian's (Firm),2007 Sales catalog of an art collection *Business India* ,2006-07 **Press in India** India.
