Mumford Gutkind Chin The Emergence Of Eco Decentralism:

Mumford Gutkind Bookchin Janet Biehl, 2011 Murray Bookchin 1921 2006 was the originator and primary theorist of social ecology a radical politics that insists on uprooting the social causes of environmental destruction In this pamphlet Janet Biehl traces the evolution of Bookchin's eco decentralism from the work of Lewis Mumford and E A Gutkind From the publisher **Brill's Companion to Anarchism and Philosophy** Nathan J. Jun, 2017-09-25 Despite the recent proliferation of scholarship on anarchism very little attention has been paid to the historical and theoretical relationship between anarchism and philosophy Seeking to fill this void Brill's Companion to Anarchism and Philosophy draws upon the combined expertise of several top scholars to provide a broad thematic overview of the various ways anarchism and philosophy have intersected Each of its 18 chapters adopts a self consciously inventive approach to its subject matter examining anarchism's relation to other philosophical theories and systems within the Western intellectual tradition as well as specific philosophical topics subdisciplines and methodological tendencies **Climate Crisis and the Democratic Prospect** Frank Fischer, 2017 Can contemporary democratic governments tackle climate crisis Some argue that democracy has to be a central part of a strategy to deal with climate change Others argue that it not to be up to the challenge in the time frame available that it will require a stronger hand even a form of eco authoritarianism This book supports the case for environmental democracy but argues that sustaining democratic practices will be difficult during the global climate turmoil ahead This inquiry thus seeks a political ecological strategy for preserving democratic governance during hard times Without ignoring the global dimension the analysis identifies an alternative path in the theory and practices participatory environmental governance embodied in a growing global relocalization movement Drawing on these ideas and experiences the task is to influence environmental political theory in ways that can be of assistance to those who will face climate crisis in its full magnitude in Up from the Depths Aaron Sachs, 2022-06-07 A double portrait of two of America's most influential writers that reveals the surprising connections between them and their uncanny relevance to our age of crisis Up from the Depths tells the interconnected stories of two of the most important writers in American history the novelist and poet Herman Melville 1819 1891 and one of his earliest biographers the literary critic and historian Lewis Mumford 1895 1990 Deftly cutting back and forth between the writers Aaron Sachs reveals the surprising resonances between their lives work and troubled times and their uncanny relevance in our own age of crisis The author of *Moby Dick* was largely forgotten for several decades after his death but Mumford helped spearhead Melville's revival in the aftermath of World War I and the 1918 1919 flu pandemic when American culture needed a forebear with a suitably dark vision As Mumford's career took off and he wrote books responding to the machine age urban decay world war and environmental degradation it was looking back to Melville's confrontation with crises such as industrialization slavery and the Civil War that helped Mumford to see his own era clearly Mumford remained obsessed with Melville ultimately helping to canonize him as America's greatest tragedian But largely forgotten

today is one of Mumford's key insights that Melville's darkness was balanced by an inspiring determination to endure. Amid today's foreboding over global warming, racism, technology, pandemics, and other crises, Melville and Mumford remind us that we've been in this struggle for a long time. To rediscover these writers today is to rediscover how history can offer hope in dark times.

The Horizontal Metropolis Between Urbanism and Urbanization Paola Viganò, Chiara Cavalieri, Martina Barcelloni Corte, 2018-05-04. This book provides an overview of the Horizontal Metropolis concept and of the theoretical, methodological, and political implications for the interdisciplinary field in which it operates. The book investigates the contemporary emergence of a new type of extended urbanity across regions, territories, and continents up to the global scale. Further, it explores the diffusion of contemporary urban conditions in an interdisciplinary and original manner by analyzing essential case studies. Offering extensive content on the Horizontal Metropolis concept, the book presents a range of approaches intended to transcend various inherited spatial ontologies: urban, rural, town, country, city, non-city, and society-nature. The book is intended for all readers interested in the emergence and development of new approaches in cultural theory, urban and design education, landscape urbanism, and geography.

Enlightenment and Ecology Tarinski Yavor Tarinski, 2021-02-20. Throughout his life, prophetic American philosopher Murray Bookchin created social ecology as a comprehensive social program for the challenges of our present era. Through tireless teaching, speaking, organizing, and writing, Bookchin presented a humanist vision of ecology based on community, direct democracy, and the better promises of the Enlightenment, showing how we could transform our society into one that is free and egalitarian. Enlightenment and Ecology is an international collection of commemorative essays by scholars and activists who have each incorporated the ideas of social ecology into their own work. This book also examines how the Kurdish freedom movement is using the Bookchin's utopian ideas. In a time of urgent need for radical change, these essays provide both precious historical lessons and a transformative road map.
