Music 109 Notes On Experimental Music:

Music 109 Alvin Lucier, 2012-11-16 Composer and performer Alvin Lucier brings clarity to the world of experimental music as he takes the reader through more than a hundred groundbreaking musical works including those of Robert Ashley John Cage Charles Ives Morton Feldman Philip Glass Pauline Oliveros Steve Reich Christian Wolff and La Monte Young Lucier explains in detail how each piece is made unlocking secrets of the composers style and technique The book as a whole charts the progress of American experimental music from the 1950s to the present covering such topics as indeterminacy electronics and minimalism as well as radical innovations in music for the piano string quartet and opera Clear approachable and lively Music 109 is Lucier s indispensable guide to late 20th century composition No previous musical knowledge is required and all readers are welcome *Eight Lectures on Experimental Music* Alvin Lucier, 2017-11-14 Brilliant lectures by the most influential experimental music composers of our time In this brilliant collection path breaking figures of American experimental music discuss the meaning of their work at the turn of the twenty first century Presented between 1989 and 2002 at Wesleyan University these captivating lectures provide rare insights by composers whose work has shaped our understanding of what it means to be experimental Maryanne Amacher Robert Ashley Philip Glass Meredith Monk Steve Reich James Tenney Christian Wolff and La Monte Young Collected here for the first time together these lectures tell the story of twentieth century American experimental music covering such topics as repetition phase drone duration collaboration and technological innovation Containing introductory comments by Lucier and the original question and answer sessions between the students and the composers this book makes the theory and practice of experimental music available and accessible to a new generation of students artists and scholars **University Press of New England: Fall 2012 New Titles ,** **Interpretive Labor** Kirsten Carithers, 2025 Why did so many musicians in the postwar era engage with experimental practices and why do artists continue to do so today What happens when we acknowledge the work that goes into performing this repertoire What kind of work is it to be a contemporary musician anyway To address these questions Interpretive Labor Experimental Music at Work presents the theory of Interpretive Labor or the creative work of interpretation This book introduces and develops Interpretive Labor as grounded in a vast network of participants in new music between c 1960 and the present establishes several models of musical work and explores the myriad connections between music and labor in the neoliberal present Experimentalism s practitioners may rely on different codes and norms than most classical or popular musicians but the underlying work that individuals do to create understand prepare and produce their music is quite ordinary At the same time because these musicians did not initially have access to a normative performance practice the work involved is often especially pronounced and sometimes takes unusual forms The story of Interpretive Labor thus demonstrates the value of a marriage between labor studies and music studies and provides a novel conceptual framework for the economy of musical activities Its various forms can be instructive to anyone whose work

involves some degree of creativity from computer programmers to social media influencers interior designers to event planners and of course musicians Revisiting the Historiography of Postwar Avant-Garde Music Anne-Sylvie Barthel-Calvet, Christopher Brent Murray, 2022-07-29 This collection of essays delves into the historiographical traditions that have dominated how the stories of European postwar avant garde music are told seeking to approach commonplaces of that history writing from new perspectives The contributors revisit subjects as varied as the impact of long playing records on the emergence of open works Messiaen's interest in non European musical traditions Xenakis's turn to information theory Kagel's strategic invention of a new genre Berio's dependence on funding from American foundations and the ways in which figures like Boulez Stockhausen Pousseur and Nono constructed their musical ancestries Leading experts in their respective fields the volume's authors have sought to rethink the historiography of European experimental music of the 1950s 1960s and 1970s in ways that resituate that small but influential milieu in broader historical and cultural contexts In doing so they suggest new directions and insights for students and specialists of twentieth century music and music historiography

Landscape David Grubbs, 2014-03-03 John Cage's disdain for records was legendary. It was shared by other experimental and avant garde musicians in the 1960s. Scholar and longtime musician David Grubbs explores the present day musical landscape as listeners encounter experimental music through the recorded artifacts of composers and musicians who largely disavowed recordings.

Performance Practice in the Music of Steve Reich Russell Hartenberger, 2016-10-06
Performance Practice in the Music of Steve Reich provides a performer's perspective on Steve Reich's compositions from his iconic minimalist work *Drumming* to his masterpiece *Music for 18 Musicians*. It addresses performance issues encountered by the musicians in Reich's original ensemble and the techniques they developed to bring his compositions to life. Drawing comparisons with West African drumming and other non-Western music, the book highlights ideas that are helpful in the understanding and performance of rhythm in all pulse-based music. Through conversations and interviews with the author, Reich discusses his percussion background and his thoughts about rhythm in relation to the music of Ghana, Bali, India, and jazz. He explains how he used rhythm in his early compositions, the time feel he wants in his music, the kind of performer who seems to be drawn to his music, and the way perceptual and metrical ambiguity create interest in repetitive music.

First Experiences in Music Lyman C. Hurd, Edith J. Savage, 1966 This book is intended to help prepare the prospective elementary teacher to handle these first experiences through a knowledge of musical fundamentals, a background of related information, and an acquaintance with the principles of teaching music. This book is designed so that its three sections can be taught either concurrently or sequentially. Thus the content may be adapted to courses of either one or two semesters.
