**The Legal Environment of the New Millennium** Samuel D. Hodge (Jr.),2003

**Moser on Music Copyright** David J.

Moser,2006 Knowledge of copyright law is essential to anyone who hopes to have a career in music It fosters an environment where musicians and songwriters can share their creations with the public and know that their music will not be manipulated or misused without their consent and most importantly that they will be paid for their work Without copyright law there would be far less incentive for anyone to make music and almost no incentive for record labels to produce market and sell it Understanding copyright law is particularly relevant today as Internet file sharing and CD burning have made music copyright law front page news In Moser on Music Copyright David J Moser one of the foremost authorities on the subject provides students educators lawyers and anyone in the music industry with a thorough understanding of copyright law what it protects the benefits of registering a copyright and what to do when your copyright has been infringed Controversies involving copyright and online music are also discussed in detail with case studies of the recent blockbuster cases in this area including the lawsuits against Napster Grokster and more Although written in clear and readable language Moser on Music Copyright is an in depth resource providing detailed explanations of copyright law s application to music and has been used as a text by institutions such as Fordham University Law School Loyola University New York University Northeastern University and UCLA

*Collective Management of Music Copyright* Qingqing Xu,2023-04-17 Two of the objectives of the Chinese Copyright Law are to protect the copyright of authors to their literary and artistic works and encourage the creation and dissemination of works In practice however in spite of the existence of the Music Copyright Society of China MCSC that was established to assist with exercising copyright music creators in China remain in need of help to protect and manage their fragmented copyright The MCSC was the first collective management organisation CMO in mainland China and is the only CMO in the field of musical works While there is a large music industry and copyright business in China the MCSC only had 11 356 members at the end of 2021 The third amendment of the Chinese Copyright Law was initiated in 2011 and came into effect in June 2021 after a long debate for almost ten years The discussion of the third amendment has highlighted the controversial topic of collective management of copyright This book explores the adequacy of the MCSC as an intermediary representing rights for music creators The main argument developed in this study is that the work of the MCSC for individual composers and lyricists is hampered by shortcomings in the regulatory regime as well as by a lack of members rights to participate in the management of their own rights and by the ineffective international cooperation between the MCSC and other musical CMOs overseas The analysis is undertaken through a case study approach comparing the collective management systems of music copyright in China the United States and Australia and addressing the question of how musical CMOs operate in these countries Specifically three perspectives are examined the regulatory systems designed to limit the misuse of those CMOs monopoly members rights in the organisations and international cooperation between these

CMOs Overall the main findings of this book suggest that the MCSC in China could work more effectively to protect music creators interests In contrast although the operational frameworks of the American Society of Composers Authors and Publishers ASCAP and the Broadcasting Broadcast Music Inc BMI in the United States and the Australasian Performing Right Association APRA in Australia are not perfect models the systems in these two countries may at least provide reference points for potential improvement of the regime of the MCSC The research recommends three courses of action strengthening the regulatory design overseeing the MCSC s monopoly clarifying the relationship between the MCSC and its members while providing the members with the right to manage their own copyright and improving the international cooperation between the MCSC and CMOs in other countries **Protecting Ideas** David L. Hudson,2009 Discusses why it is important to protect intellectual property such as songs books and even one s own reputation Ages 16 **The Legal Environment of the New Millennium** Samuel D. Hodge,2001 This book includes the standard matter covered in a Legal Environment of Business text including a discussion of Cyberlaw and ethical issues The format differs however by including cutting edge cases cases that have been decided in the past few years or matters involving the legal disputes of the rich and famous For instance a student will learn about punitive damages by reading about a case involving Whitney Houston Domain name disputes will focus on litigation involving Madonna and Sting The enforcement of an arbitration agreement deals with Latrell Sprewell and his assault of the head coach of the player s former basketball team It is believed this approach will stimulate interest in the materials since the players in the litigation will be well known to the general public and students will enjoy learning about the legal exploits of these famous people In addition the book follows the legal problems of a family during the semister in which a series of written problems are presented in order to stress legal anaylsis and writing

**Specialized Legal Research , The Broadcast Century and Beyond** Robert L Hilliard,Michael C Keith,2012-10-02 The Broadcast Century and Beyond is a popular history of the most influential and innovative industry of the century The story of broadcasting is told in a direct and informal style blending personal insight and authoritative scholarship to fully capture the many facets of this dynamic industry The book vividly depicts the events people programs and companies that made television and radio dominant forms of communication The latest edition includes coverage of all the technologies that have emerged over the past decade and discusses the profound impact they have had on the broadcasting industry in political social and economic spheres Broadcasting as a whole has been completely revolutionized with the advent of YouTube podcasting iphones etc and the authors show how this closing of world wide broadcasting channels affects the industry

**Music Copyright for the New Millennium** David J. Moser,2002 **Mass Media in the New Millennium** James K. Buckalew,K. Tim Wulfemeyer,2005 **Song Sheets to Software** Elizabeth C. Axford,2009-03-26 The third edition of Song Sheets to Software A Guide to Print Music Software Instructional Media and Web Sites for Musicians includes information on the history of printed music and publishing and copyright laws as well as completely revised and updated listings of music software and other

instructional media web sites for musicians and technical terms In addition Elizabeth C Axford provides new information on instructional DVDs book and audio CD sets and music software programs for teaching everything from children s music to high end professional recording The book is divided into 16 chapters by subject matter such as Music Appreciation Guitar and Bass Country Folk and Traditional and Vocal Choral Opera and Musical Theater offering both related software titles and web sites for each topic New to the third edition is a CD ROM supplying Live Links to the sites discussed as well as an expanded and easily searchable Tech Talk and sample print music scores The third edition also includes sections on digital sheet music digital online collections of historical sheet music video game music and an updated bibliography These updates and revisions make this the most complete resource of its kind available
