

Music In The Seventeenth Century

Claude V. Palisca

Music In The Seventeenth Century:

Music in the Seventeenth Century Lorenzo Bianconi, 1987-11-26 Examines musical life in the seventeenth century a period of profound change in the history of music

The Cambridge History of Seventeenth-Century Music Tim Carter, John Butt, 2005-12-22 The Cambridge History of Seventeenth Century Music seeks to provide the most up to date knowledge on seventeenth century music together with a vital questioning of the way in which such a history can be told or put together for our present purposes Written by a distinguished team of experts in the field the chapters not only address traditional areas of knowledge such as opera and church music but also look at the way this extremely diverse and dynamic musical world has been categorised in the past and how its products are viewed from various cultural points of view While this history does not depart entirely from the traditional study of musical works and their composers there is a strong emphasis on the institutions cultures and politics of the age together with an interrogation of the ways in which music related to contemporary arts sciences and beliefs

Music in the Seventeenth and Eighteenth Centuries Richard Taruskin, 2006-08-14 Music in the Seventeenth and Eighteenth Centuries the second volume Richard Taruskin's monumental history illuminates the explosion of musical creativity that occurred in the seventeenth and eighteenth centuries Examining a wealth of topics Taruskin looks at the elegant masques and consort music of Jacobean England the Italian concerto style of Corelli and Vivaldi and the progression from Baroque to Rococo to romantic style Perhaps most important he offers a fascinating account of the giants of this period Bach Handel Mozart Haydn and Beethoven Laced with brilliant observations memorable musical analysis and a panoramic sense of the interactions between history culture politics art literature religion and music this book will be essential reading for anyone who wishes to understand this rich and diverse period

The Oxford History of Music: The music of the seventeenth century Percy Carter Buck, 1929

A Performer's Guide to Seventeenth-Century Music Stewart Carter, 2012-03-21 Revised and expanded A Performer's Guide to Seventeenth Century Music is a comprehensive reference guide for students and professional musicians The book contains useful material on vocal and choral music and style instrumentation performance practice ornamentation tuning temperament meter and tempo basso continuo dance theatrical production and much more The volume includes new chapters on the violin the violoncello and violone and the trombone as well as updated and expanded reference materials internet resources and other newly available material This highly accessible handbook will prove a welcome reference for any musician or singer interested in historically informed performance

Italian Violin Music of the Seventeenth Century Willi Apel, 1990 The emergence of pieces designated for specific instruments marked a significant change in musical practice The celebrated musicologist Willi Apel discusses virtually all the surviving printed works from the seventeenth century that are intended for the violin He describes the music of some sixty Italian composers of this period detailing the individual innovative aspects of the pieces their form and issues of performance practice

The Dissemination of Music in Seventeenth-century

Europe Erik Kjellberg, 2010 In this volume fifteen musicologists from five countries present new findings and observations concerning the production distribution and use of music manuscripts and prints in seventeenth century Europe A special emphasis is laid on the D ben Collection one of the largest music collections of seventeenth century Europe preserved at the Uppsala University Library The papers in this volume were initially presented at an international conference at Uppsala University in September 2006 held on the occasion of the launching of The D ben Collection Database Catalogue on the Internet For the first time the entire collection had been made accessible worldwide covering a vast number of musical and philological aspects of all items in the collection *From Renaissance to Baroque* Jonathan Wainwright, Peter Holman, 2017-07-05 Historians of instruments and instrumental music have long recognised that there was a period of profound change in the seventeenth century when the consorts or families of instruments developed during the Renaissance were replaced by the new models of the Baroque period Yet the process is still poorly understood in part because each instrument has traditionally been considered in isolation and changes in design have rarely been related to changes in the way instruments were used or what they played The essays in this book are by distinguished international authors that include specialists in particular instruments together with those interested in such topics as the early history of the orchestra iconography pitch and continuo practice The book will appeal to instrument makers and academics who have an interest in achieving a better understanding of the process of change in the seventeenth century but the book also raises questions that any historically aware performer ought to be asking about the performance of Baroque music What sorts of instruments should be used At what pitch In which temperament In what numbers and or combinations For this reason the book will be invaluable to performers academics instrument makers and anyone interested in the fascinating period of change from the Renaissance to the Baroque *Music in Seventeenth-Century Naples* Dinko Fabris, 2017-07-05 The most important figure of seventeenth century Neapolitan music Francesco Provenzale 1624 1704 spent his long life in the service of a number of Neapolitan conservatories and churches culminating in his appointment as maestro of the Tesoro di S Gennaro and the Real Cappella Provenzale was successful in generating significant profit from a range of musical activities promoted by him with the participation of his pupils and trusted collaborators Dinko Fabris draws on newly discovered archival documents to reconstruct the career of a musician who became the leader of his musical world despite his relatively small musical output The book examines Provenzale s surviving works alongside those of his most important Neapolitan contemporaries Raimo Di Bartolo Sabino Salvatore and Caresana and pupils Fago Greco Veneziano and many others revealing both stylistic similarities and differences particularly in terms of new harmonic practices and the use of Neapolitan language in opera Fabris provides both a life and works study of Provenzale and a conspectus of Neapolitan musical life of the seventeenth century which so clearly laid the groundwork for Naples later status as one of the great musical capitals of Europe *Music in the Service of the King: France in the Seventeenth Century* Robert M. Isherwood, 1973 The arts particularly music are viewed in this work

as an integral part of evolving royal absolutism during the reign of Louis XIV Drawing extensively on archival documents and musical scores the author views the historical association of music and monarchy as a continuous development beginning with the Valois and climaxing in Louis XIV s reign The king is pictured as a rational calculating man whose luxurious life style was politically motivated and who undertook the centralization of the arts to assure French artistic preeminence Elaborate costly musical productions were also used to distract the nobility to demonstrate French affluence to foreign powers and to embellish the royal image

From Renaissance to Baroque Jonathan P. Wainwright,2001 **Poetry and Music in Seventeenth-Century England** Diane Kelsey McColley,1997-12-11 This study explores the relationship between the poetic language of Donne Herbert Milton and other British poets and the choral music and part songs of composers including Tallis Byrd Gibbons Weelkes and Tomkins The seventeenth century was the time in English literary history when music was most consciously linked to words and when the mingling of Renaissance and new philosophy opened new discovery routes for the interpretation of art McColley offers close readings of poems and the musical settings of analogous texts and discusses the philosophy performance and disputed political and ecclesiastical implications of polyphony She also enters into the discourse about the nature of language relating poets use of language and composers use of music to larger questions concerning the arts politics and theology

Desire and Pleasure in Seventeenth-Century Music Susan McClary,2012-03-06 In this book Susan McClary examines the mechanisms through which seventeenth century musicians simulated extreme affective states desire divine rapture and ecstatic pleasure She demonstrates how every major genre of the period from opera to religious music to instrumental pieces based on dances was part of this striving for heightened passions by performers and listeners While she analyzes the social and historical reasons for the high value placed on expressive intensity in both secular and sacred music and she also links desire and pleasure to the many technical innovations of the period McClary shows how musicians whether working within the contexts of the Reformation or Counter Reformation Absolutists courts or commercial enterprises in Venice were able to manipulate known procedures to produce radically new ways of experiencing time and the Self

Music, Ireland and the Seventeenth Century Barra Boydell,Harry White,Kerry Houston,2009 Publisher and editors change over the course of the series *Music Theory in Seventeenth-century England* Rebecca Herissone,2000 Thus over the course of the seventeenth century there occurred a complete transformation in almost every aspect of theory by the 1720s many of the principles being described bore close relation to those still used today Nowhere was this metamorphosis clearer than in England where because of a traditional emphasis on practicality there was much more willingness to accept and encourage new theoretical ideas than on the continent *The Theme of Music in Flemish Paintings of the Seventeenth Century* Richard D. Leppert,1977 *Defining Strains* James Porter,2007 This volume aims to fill a historical gap in the recent coverage of musical life in Scotland The seventeenth century in Scotland as in Europe was one of religious controversy and civil strife The period has thus been neglected by music historians in comparison with the centuries before

and after it But despite loss of royal patronage after 1603 Scots still made their impact as composers and preservers of their musical language It was in this century that a distinctive Scots melodic idiom crystallised as those defining strains laid the basis for the flowering of song both Highland and Lowland a century later At this time Scots also took a lively interest in the music of England Ireland France and Italy as is evident in the music manuscripts of the period This volume is the result of new research into such key figures as the composers Tobias Hume William Kinloch Patrick MacCrimmon and the Aberdeen publisher John Forbes it looks at the important manuscripts including those of the classical bagpipe harp lute and keyboard repertoire as well as imported French and Italian music it deals with burgh and ceremonial music secular songs and their texts and the psalm singing that dominated public life The essays are newly written from a range of specialties including those of manuscript source analysis text and music relationships social contexts and performance practice

Musical Patronage in Seventeenth-century England Jonathan P. Wainwright, 1997 After a short biography of Hutton and history of his family some of the most important music collectors in 17th century England Wainwright music U of York describes the survival and dispersal of his extensive collection his copyists John Lilly and Stephen Bing the family steward George Jeffr

Music and Ideas in the Sixteenth and Seventeenth Centuries Claude V. Palisca, 2010-10-01 This essential summation of Palisca's life work was nearly finished by his death in 2001 and it was brought to completion by Thomas J Mathiesen

Venetian Instrumental Ensemble Music in the Seventeenth Century Eleanor Selfridge-Field, 1969
