opportunities Teaching Music Performance in Higher Education will appeal to scholars performers teachers but also students whose interests centre on innovative practices in conservatoires and music departments

Improvisation, Creativity, and Consciousness Ed Sarath, 2013-06-01 Using insights from Integral Theory describes how the improvisational methods of jazz can inform education and other fields

Black Music Matters Ed Sarath, 2018-08-15 *Black Music Matters* Jazz and the Transformation of Music Studies is one of the first books to promote the reform of music studies with a centralized presence of jazz and black music to ground American musicians in a core facet of their true cultural heritage Ed Sarath applies an emergent consciousness based worldview called Integral Theory to music studies while drawing upon overarching conversations on diversity and race and a rich body of literature on the seminal place of black music in American culture Combining a visionary perspective with an activist tone Sarath installs jazz and black music in as a foundation for a new paradigm of twenty first century musical training that will yield an unprecedented skill set for transcultural navigation among musicians Sarath analyzes prevalent patterns in music studies change discourse including an in depth critique of multiculturalism and proposes new curricular and organizational systems along with a new model of music inquiry called Integral Musicology This jazz black music paradigm further develops into a revolutionary catalyst for development of creativity and consciousness in education and society at large Sarath's work engages all those who share an interest in black white race dynamics and its musical ramifications spirituality and consciousness and the promotion of creativity throughout all forms of intellectual and personal expression
