Fry,Andrew Edgar,2022-03-03 The COVID 19 pandemic has had an impact on every aspect of our social cultural and commercial lives including the world of sport This book examines the ethical and philosophical dimensions of the intersection of COVID 19 and sport The book goes beyond simple description of the impact of the pandemic on sport to offer normative judgments on how the sporting world responded to challenges posed by COVID 19 as well as philosophical speculation as to how COVID 19 will change our understanding and appreciation of sport in the long term It examines the considerations that either influenced or arguably should have influenced decisions to continue or to resume the playing of organized sport in the midst of a pandemic As a part of this analysis a spotlight is shone on how sport intersected with political issues surrounding COVID 19 It also explores the configuration and meaning of sport in the COVID 19 era

touching on themes such as the nature of sport and its integrity and sport's relationship to technology. Other themes include the changed nature of spectatorship suffering in sport during pandemic times and the impact of COVID 19 on the Olympic and Paralympic Games. A final chapter looks ahead and asks what sport might look like in a post COVID world. This is fascinating reading for anybody with an interest in the ethics and philosophy of sport, the sociology of sport, event studies, politics or public health.

Whiteness Interrupted Marcus Bell, 2021-06-28. In *Whiteness Interrupted* Marcus Bell presents a revealing portrait of white teachers in majority black schools in which he examines the limitations of understandings of how white racial identity is formed. Through in-depth interviews with dozens of white teachers from a racially segregated urban school district in Upstate New York, Bell outlines how whiteness is constructed based on localized interactions and takes a different form in predominantly black spaces. He finds that in response to racial stress in a difficult teaching environment, white teachers conceptualized whiteness as a stigmatized category predicated on white victimization. When discussing race outside majority black spaces, Bell's subjects characterized American society as postracial in which race seldom affects outcomes. Conversely, in discussing their experiences within predominantly black spaces, they rejected the idea of white privilege, often angrily, and instead focused on what they saw as the racial privilege of blackness. Throughout, Bell underscores the significance of white victimization narratives in black spaces and their repercussions as the United States becomes a majority minority society.
