Object Relations Brief Therapy Michael Stadter, 2009-04-13 Object Relations Brief Therapy combines practical techniques with the depth of object relations theory the wisdom of previous brief therapy writers and most notably an emphasis on the unique therapeutic relationship Often therapists despair of doing any meaningful work in brief therapy To this Michael Stadter suggests the following pragmatic approach think dynamically address some underlying issues and do what you can Specifically the book emphasizes the depth of understanding of human experience that comes from an object relations perspective the insight and experiential vitality of attention to the therapeutic relationship including its real transference and countertransference elements the impact of the psychodynamic techniques that have been carefully studied and delineated by brief therapy writers such as Davanloo Horowitz Malan Strupp and Binder and the flexibility of an eclectic approach that thoughtfully and selectively incorporates non psychodynamic interventions Therapists do not have to escape managed care according to Stadter Rather they need to learn how to deal with it in a way that preserves their integrity and enables them to practice the kind of healing psychotherapy they know how to do In today's health care climate Object Relations Brief Therapy is a much needed guide for committed therapists
