### **Peter Levenda Unholy Alliance:**

*Unholy Alliance* Peter Levenda, 2002-05-24 Engagingly written *Unholy Alliance* is a comprehensive popular history of the occult background and roots of the Nazi movement showing how the ideas of a vast international network of late 19th and early 20th century occult groups influenced Nazi ideology. Levenda takes readers through the teachings of Madame Blavatsky, Aleister Crowley, the Thule Gesellschaft, the occult secret society that formed the ideological heart of the early Nazi Party, the Order of the Golden Dawn and the Order of the Eastern Temple, and demonstrates how each influenced Nazi ideology. He also details the expedition to Tibet of the Ancestral Heritage Research and Teaching Society, comprised of the same SS officers who would later be involved in grisly medical experiments on concentration camp prisoners. Levenda traces the Nazis' movements as they continued their activities after the war or morphed into neo-Nazi skinheads and satanic groups such as the Christian Identity and White Aryan Resistance movements. Levenda's book is not only a major work of investigative reporting but also the striking story of the unholy alliance between politics and religion or politics and occultism that has dominated events in Europe and the Americas since World War I with all its implications for continuing racial and religious violence in Europe, Asia and the Americas.

**Kundalini Tales** Richard Sauder, 1998-07 Sauder continues his studies of underground bases with new information on the occult underpinnings of the US space programme. The book also contains a breakthrough section that examines actual US patents for devices that manipulate minds and thoughts from a remote distance. Included are chapters on the secret space programme and a 130-page appendix of patents and schematic diagrams of secret technology and mind control devices.

**Conspiracy Theories** Aaron John Gulyas, 2016-02-22 Narratives based on conspiratorial and paranoid thinking have become increasingly prominent throughout the 20th and 21st centuries. From the prosaic to the outlandish, conspiracy theories involve aliens and Nazis, underground bases and mind control technology. They range from sinister tales of malevolent reptilian beings infiltrating our government to fears of the New World Order rounding up patriotic Americans and putting them into internment camps. These stories and their underlying concerns have a long history in the US and have often been bolstered by revelations of real conspiracies and cover-ups by private and public entities. This book examines conspiracy theories and the narratives constructed by those who believe and propagate them, providing a unique view of US history and highlighting fears both founded and unfounded.

**Black Terror White Soldiers** David Livingstone, 2013-06-16 Far too ignorant of the histories of the rest of the world, being aware of only the accomplishments of Greece, Rome and Europe, Westerners have been made to believe that their societies represent the most superior examples of civilization. However, the Western value system stems from a misconception that, as in nature, human society too is evolving. The idea derives from the hidden influence of secret societies who followed the belief in spiritual evolution of the Kabbalah, which taught that history would attain its fulfillment when man would become God and make his own laws. Therefore, the infamous Illuminati gave its name to the Enlightenment of the eighteenth century, which claimed that human progress must abandon

superstition meaning Christianity in favor of reason Thus the Illuminati succeeded in bringing about the French and American revolutions which instituted the separation of Church and State and from that point forward the Western values of Humanism seen to include secularism human rights democracy and capitalism have been celebrated as the culmination of centuries of human intellectual evolution This is the basis of the propaganda which has been used to foster a Clash of Civilizations where the Islamic world is presented as stubbornly adhering to the anachronistic idea of theocracy Where once the spread of Christianity and civilizing the world were used as pretexts for colonization today a new White Man's Burden makes use of human rights and democracy to justify imperial aggression However because after centuries of decline the Islamic world is incapable of mobilizing a defense the Western powers as part of their age old strategy of Divide and Conquer have fostered the rise of Islamic fundamentalism to both serve as agent provocateurs and to malign the image of Islam These sects known to scholars as Revivalists opposed the traditions of classical Islamic scholarship in order to create the opportunity to rewrite the laws of the religion to better serve their sponsors Thus were created the Wahhabi and Salafi sects of Islam from which were derived the Muslim Brotherhood which has been in the service of the West ever since But the story of the development of these Islamic sects involves the bizarre doctrines and hidden networks of occult secret societies being based on a Rosicrucian myth of Egyptian Freemasonry which see the Muslim radicals as inheritors of an ancient mystery tradition of the Middle East which was passed on to the Knights Templar during the Crusades thus forming the foundation of the legends of the Holy Grail These beliefs would not only form the cause for the association of Western intelligence agencies with Islamic fundamentalists but would fundamentally shape much of twentieth century history *Book of Lies* Metzger, Richard, 2014-09-01 New package for a cult classic First published in 2003 The Book of Lies was hailed as a 21st grimoire and instantly became a cult classic Now reformatted for the next generation of magicians and all counterculture devotees it gathers an unprecedented cabal of occultists esoteric scholars and forward thinkers all curated by Disinformation's former wicked warlock Richard Metzger This compendium of the occult includes entries on topics as diverse and dangerous as Aleister Crowley Secret Societies Psychedelics and Magick in theory and practice The result is an alchemical formula that may well rip a hole in the fabric of your reality Terence McKenna asks if we contact aliens with the smokable drug DMT Daniel Pinchbeck recounts his psychedelic and magical experiences Techgnosis author Eric Davis writes about H P Lovecraft Robert Anton Wilson writes about the similarities between Aleister Crowley and Timothy Leary Donald Tyson's The Enochian Apocalypse Working ask if the seeds of the end of the world sown in the Elizabethan era Other contributors or subjects written about include Brian Barritt Vere Chappell Ida Craddock Joe Coleman Nevill Drury Stephen Edred Flowers T Allen Greenfield Gary Lachman Anton Lavey Peter Levenda Grant Morrison Michael Moynihan Rosaleen Norton Jack Parsons Austin Osman Spare and Tracy Twyman It's all here and more *The Monstrous and the Dead* Mark Neocleous, 2005 A comprehensive analysis of the use of metaphors of monstrosity and death in political theory specifically in relation to
