We have witnessed AI's profound impact on people's interactions with recent technological machines; now they can harness this power to propel diverse and adaptable innovations that can keep up with the lightning-fast pace of cultural and technological change while also opening up fulfilling new avenues for exploration. The UAE is eager to stay ahead of the curve in terms of new technology so that it can study how to best use generative AI in various domains like education, healthcare, media, advanced sciences, and more in accordance with the directives of its wise leadership to prepare for the future. With 100 million users between November 2022 and January 2023, and over one million users in the first five days, Chat GPT's launch has drawn an extraordinary turnout.
