Understanding Your Financial Calculator James F. Dalton, 1999

You're Paid What You're Worth Jake Rosenfeld, 2021-02-16 This is the book to throw at your human resources director not literally of course when any attempt is being made to bamboozle you about how decisions on pay have been made It is a closely argued thoroughly researched treatise on how we got here and how pay

could be both fairer and more effective as a reward

Stefan Stern Financial World A flat out revelation of a book by one of the nation's top scholars of the labor market required reading for anyone who cares about the future of work in America

Matthew Desmond author of *Poverty by America* Jake Rosenfeld pulls back the curtain on the multifaceted cultural institutional and market forces at play in wage setting This timely book illuminates the power dynamics and often arbitrary forces that have contributed to the egregious inequality in the U.S. labor market and then lays out a clear blueprint for progressive change

Thea Lee President of the Economic Policy Institute Job performance and where you work play a role in determining pay but judgments of productivity and value are highly subjective What makes a lawyer more valuable than a teacher How do you measure the output of a police officer a professor or a reporter Why in the past few decades did CEOs suddenly become hundreds of times more valuable than their employees The answers lie not in objective criteria but in battles over interests and ideals Four dynamics are paramount power inertia mimicry and demands for equity Power struggles legitimize pay for particular jobs and organizational inertia makes that pay seem natural Mimicry encourages employers to do what their peers are doing And workers are on the lookout for practices that seem unfair Jake Rosenfeld shows us how these dynamics play out in real world settings drawing on cutting edge economics and original survey data with an eye for compelling stories and revealing details

You're Paid What You're Worth gets to the heart of that most basic of social questions Who gets what and why
