Predicting the Performance of Multistage Separation Processes Fouad M. Khoury, 2004-11-11 Chemical engineer Khoury explains the performance prediction of multistage separation processes for interactions between vapor and liquids These processes are at the heart of the petroleum petrochemical and chemical industries Although mathematical models are presented in some detail special attention is paid to the practical interpretation of the models Industrial heuristics about what ranges of operating variables will work are also included Annotation copyrighted by Book News Inc Portland OR

Distillation and Absorption '97 Richard Darton, 1997 This volume presents reports from the 1997 conference held in Maastricht Netherlands The papers covering a broad range of topics from the estimation of physical properties to the design and performance of contacting trays demonstrate the high rate of advance in technology
