*List-o-tapes* ,1989 **Our Dementia Diary** Rachael Dixey,2016 This is a love story from start to finish Irene and Rachael s Based on the diaries of Rachael Dixey who looked after her civil partner Irene after she developed early onset Alzheimer s disease the book opens with the lines Irene Alzheimer s and me Alzheimer s came between us It does that drives you and the love of your life apart going your separate ways because you cannot follow That s the story really that s it The end But it is also the beginning of the story which shows how life can still be lived despite losing a life partner to dementia and how to cope emotionally and practically with a disease that robs you of your loved one a thousand times before they die The story charts the daily decline and inexorable loss of Irene to dementia With the dramatic deterioration in Irene s health Rachael turns from lover and soul mate to career and finally single woman Eventually no longer able to cope with Irene at home she makes the agonizing decision to allow Irene to be put in a care home There she spent her last six years When she died aged 66 the couple had spent half their life together This book is a powerful and moving account of the progression of dementia and raises serious questions about how our society cares for those who develop the disease especially at a young age and in the gay lesbian community It also deals with loss and grief during the illness and afterwards Their memoir will be invaluable for anyone affected by dementia those working in mental health and those caring for a loved one with a life changing and incurable illness Our Dementia Diary tells with brutal honesty of love loss and life with Alzheimer s and opens up discussion of how dementia can be handled better **The Longest Farewell** Nula Suchet,2019-07-19 When Nula s husband James becomes forgetful they put it down to the stress of his work But his behaviour becomes more erratic and

inexplicable and he is eventually diagnosed with Pick's Disease early onset and aggressive dementia. Their lives change from comfortable middle class creatives through the shock of diagnosis coping with the ongoing illness not coping with the illness to the indignities of care home life. *The Longest Farewell* is a moving description of James' utter mental and physical deterioration and the effect that it had both on him and on the people from whom he was involuntarily retreating particularly Nula. Her life is completely taken, her frustration at trying to cope, her guilt at handing over his care to professionals are just part of her at times harrowing story. With seemingly little to do but wait for his death, Nula meets Bonnie, another resident at the care home suffering from the same condition. In turn she meets Bonnie's husband, the broadcaster John Suchet, and the similarity of their positions becomes a bond between them. After the deaths of James and Bonnie and some guilt-induced false starts, Nula's story takes a bitter-sweet turn, they become partners and eventually marry. *The Longest Farewell* is a heartfelt yet inspiring account of dealing with dementia and of unexpectedly finding a happy ending. Moving, heart-breaking and terrifying. But best of all, from beginning to the best of endings, it's a book about love.

Sally Magnusson *What Dementia Teaches Us About Love* Nicci Gerrard, 2019-04-04 A SUNDAY TIMES NEW STATESMAN AND FINANCIAL TIMES BOOK OF THE YEAR Essential reading about love, life and care. Kate Mosse: Nobody has written on dementia as well as Nicci Gerrard in this new book. Andrew Marr: Dementia is all around us in our families and in our genes, perhaps in our own futures. If it's not you or me, it's someone we love. After her own father's death from dementia, the writer and campaigner Nicci Gerrard set out to explore the illness that now touches millions of us yet which we still struggle to speak about. What does dementia mean for those who live with it and those who care for them? This truthful, humane book is an attempt to understand. It is filled with stories, both moving and optimistic, from those living with dementia to those planning the end of life, from the scientists unlocking the mysteries of the brain to the therapists using art and music to enrich the lives of sufferers, from the campaigners battling for greater compassion in care to the families trying to make sense of this incomprehensible de-creation of the self. It explores memory, language, identity, ageing and the notion of what it truly means to care. And it asks: how do we begin to value those who become old, invisible, forgotten? What do we owe them and each other as humans? What, in the end, really matters?

**When I'm Not Me Anymore** Rhonda Hoffman, 2019-10-08 A familiar stranger. That is who my mom became as dementia slowly took hold of her. She was someone I knew and loved, but not the same person she had been. A profound sadness hit me when I realized that my daughters may one day have to deal with me in this same condition, and I wanted them to know that who I become if this happens is not really who I am. The things I will say and do will be coming from someone who has gradually become a stranger to them. Everything about our life together will change when I have nowhere to go and all day to get there, forgetting that they still have commitments, appointments, and things to do. We will experience a sense of time travel as my memories from the past become jumbled up in the happenings of each new day. The change in my language could bring about surprising and sometimes disturbing conversations as the filters from the past

**Breakfast Memories** Kate Hanley,2019-08-06 Breakfast Memories is the story of a daughter s journey through her mom

s dementia and her discovery of the power of memories stored in the soul What prompted me to begin writing this book was the discovery of a pile of paper napkins that had been tucked away in a drawer on which my dad had written morning love poems to my mom Every morning he placed one next to the breakfast that he had prepared for her I found these napkins after my dad had died and my mom was in failing health at a local nursing home The discovery of the napkins sonnets and sharing them with my mother was what brought her back from the darkness and despair of dementia **Dueling with**
