

Nursing personal statement example

My wife, mother, sisters are all nurses. I strongly believe that the passion to care for and help people in time of their need runs in my family. Also, having taken a close relative who had stroke to many hospital appointments and saw how nurses, especially one male nurse attend to, care for and help my relative in time of his need touched me and also melted my heart. I am opportune to have been given the opportunity to work in a surgical ward at Royal Victoria Infirmary, Newcastle where on a daily basis I see world class doctors and nurses help patients.

Seeing these nurses helping patients helped to cement my motive to want to become a nurse. However, I want to study nursing because nursing as a career path will be a challenging experience that will give me the chance to care for, help and support my patients in a holistic way. Also, studying nursing will be a rewarding career for me because I will feel needed and fulfil, when I see that my patients are getting better with my help. I strongly believe that nursing is what I want to do and that studying nursing will provide me with this platform.

To be able to make a positive contribution to people's lives and be a good nurse, the person need to be selfless, be able to think critically and be competent, be courageous, emotionally stable, empathetic have good communication skills. Also, the person should be able to work well under pressure i.e. the person needs to be able handle and adapt to stress under different environments. The person also needs to be caring, patience, compassionate, committed, have concern for people, good listening and interpersonal skills.

I have been working in the caring sector for approximately seven years. Previously, I worked as a health care assistant under close supervision of a qualified nurse for Bradford Teaching Hospitals NHS Trust and my task included give patients their meal and helping them if they needed any help with their meal, helping them to mobilize if they have any mobility problem, recording and monitoring patients conditions such as respiration, temperature, weight. Currently, I work as a domestic assistant for Newcastle
