How the World Changed Social Media Daniel Miller, Elisabetta Costa, Nell Haynes, Tom McDonald, Razvan Nicolescu, Jolynna Sinanan, Juliano Spyer, Shriram Venkatraman, Xinyuan Wang, 2016-02-29 How the World Changed Social Media is the first book in Why We Post a book series that investigates the findings of anthropologists who each spent 15 months living in communities across the world This book offers a comparative analysis summarising the results of the research and explores the impact of social media on politics and gender education and commerce What is the result of the increased emphasis on visual communication Are we becoming more individual or more social Why is public social media so conservative Why does equality online fail to shift inequality offline How did memes become the moral police of the internet Supported by an introduction to the project s academic framework and theoretical terms that help to account for the findings the book argues that the only way to appreciate and understand something as intimate and ubiquitous as social media is to be immersed in the lives of the people who post Only then can we discover how people all around the world have already transformed social media in such unexpected ways and assess the consequences

Covering Extended Reality

Technologies in the Media Emma Kaylee Graves, 2023-12-28 This book presents a study of the news coverage of extended reality technologies virtual augmented and mixed reality or XR and how this news corresponds with the marketing of XR products Focusing on a group of recently emerging technological products the book offers in depth analysis of the news coverage of XR technologies and explores the overlap between news discourse and promotional discourse by comparing the way these products are framed in the news and their marketing materials Using both quantitative and qualitative data it discusses the topics covered in XR news as well as the sources used and the specific framing techniques that appear in both XR news and marketing materials In addition to these findings it also provides a set of frame categories that can be used by other researchers analysing the media coverage of emerging technologies Ultimately arguing that the news represents XR in such a way that treats readers as consumers instead of citizens prioritising the interests of XR companies rather than news audiences this book will be of interest to students and researchers in media and communications discourse studies
