focuses on practical examples showing the advantages of Visual Basic .NET in ASP programming application design and creation and .NET Web Services development. Because previous versions of Visual Basic are so prevalent this book pays special attention to issues developers face when moving from VB to VB .NET. Although Visual Basic .NET Kick Start assumes no knowledge of the .NET Framework it skips the handholding and basic programming instruction associated with entry level tutorials. Full of code examples tips and professional insights this book is about maximum payoff with minimum effort for the working programmer who wants to use Visual Basic .NET now.
