This guide is designed to walk players through their first few days of Minecraft. This guide is perfect for new players, students, educators, and veteran players looking to learn more tips, tricks, and secrets. This guide was written by a veteran educator and covers a walkthrough of Minecraft in narrative format, complete with screenshots and additional tips.

[Wow Classic](#) Vincent Verret, 2018-11-04 Welcome to the Ultimate Unofficial Classic WoW Guide for New Players. This guide contains tips, tricks, a 1-20 leveling guide, and some gold-making secrets. This guide is designed for new players and you'll need it when faced with the difficulty of the original World of Warcraft. This guide contains both an outline of leveling by questing area and character level, as well as tips, tricks, secrets, and advanced techniques to speed up your leveling. If you want to quickly get into level 60 raids and dungeons, you'll need this guide. Why World of Warcraft Classic? Like many of you, I have fond memories of the original WoW and its Burning Crusade Expansion. I remember a time before instant gratification, achievements, and cross-realm group finder, where your reputation, skill as a player, and social connections mattered. When faced with the challenges of Azeroth, we all had to make friends and work together. With the return of classic WoW, we can all have that again: friendships that last beyond the game instead of gear that is recycled with each content patch. Classic WoW is about quality over quantity. I have nearly 200 mounts on regular WoW, yet none feel as rewarding as my original level 60 mount. With this series of Guides, you can become that legend again or become a new legend in the most important MMORPG of our time.

This guide covers the initial set up, crafting, making friends, leveling up, getting FREE leaf tickets, and the end game. Learn everything you need to know to enjoy this awesome free-to-play game. You'll be the best camp counselor ever with this amazing unofficial, unauthorized guide full of tips, tricks, and information.

before starting the tutorial For Java Edition the page Tutorials Menu screen can help with that For your first game you should probably select Easy or Normal difficulty if you usually have a lot of trouble finding your feet in new games you may want to consider starting in peaceful mode A new player may also wish to enable the Bonus Chest option which gives you a few resources to start off with but this tutorial assumes you do not have a bonus chest It is entirely possible for your character to die in this game but that doesn't end the game indeed it's mostly an inconvenience If you take enough damage to die your possessions fall where you died and your character respawns elsewhere By default you respawn at a random spot within 20 blocks of the world spawn exactly as you did when starting the game Using a bed lets you pick a specific spot to respawn this is an important step and beds are mentioned several times in this guide Once you respawn you have 5 minutes to get back to where you died to retrieve your items before they disappear Unfortunately this isn't always an option If you fell into lava at least some of your items probably burned up in the lava and if your death site is still guarded by the monster that killed you or your items have fallen into the depths you might not be able to retrieve them *The Museum* Walter F.
