## **Cyber Week Near Me Customer Service:**

*Cyber Crisis* Eric Cole, 2021-05-18 Based on news reports you might think there s a major cybersecurity threat every four to five months In reality there s a cybersecurity attack happening every minute of every day Today we live our lives and conduct our business online Our data is in the cloud and in our pockets on our smartphones shuttled over public Wi Fi and company networks To keep it safe we rely on passwords and encryption and private servers IT departments and best practices But as you read this there is a 70 percent chance that your data is compromised you just don t know it yet Cybersecurity attacks have increased exponentially but because they re stealthy and often invisible many underplay ignore or simply don t realize the danger By the time they discover a breach most individuals and businesses have been compromised for over three years Instead of waiting until a problem surfaces avoiding a data disaster means acting now to prevent one In *Cyber Crisis* Eric Cole gives readers a clear eyed picture of the information war raging in cyberspace Drawing on 30 years of experience as a professional hacker for the CIA as the Obama administration s cybersecurity commissioner and as a consultant to clients around the globe from Bill Gates to Lockheed Martin and McAfee Cole offers practical actionable advice that even those with little technical background can implement including steps to take on a daily weekly and monthly basis to protect their businesses and themselves No matter who you are or where you work cybersecurity should be a top priority The information infrastructure we rely on in every sector of our lives in healthcare and finance for governments and private citizens is both critical and vulnerable and sooner or later you or your company will be a target This book is your guide to understanding the threat and putting together a proactive plan to minimize exposure and damage and ensure the security of your business your family and your future
