living and moving through space and time In this new world the face mask has become a significant object positioned as one of the key ways people can protect themselves and others from infection with the coronavirus The face mask is rich with symbolic meaning as well as practical value In the words of theorist Jane Bennett the face mask has acquired a new thing power as it is coming together with human bodies in these times of uncertainty illness and death The role of the face mask in COVID times has been the subject of debate and dissension arousing strong feelings The historical and cultural contexts in which face masks against COVID contagion are worn or not worn are important to consider In some countries such as Japan and other East Asian nations face mask wearing has a long tradition Full or partial facial coverings such as veiling is common practice in regions such as the Middle East In many other countries including most countries in the Global North most people beyond health care workers have little or no experience of face masks They have had to learn how to make sense of face masking as a protective practice and how to incorporate face masks into their everyday practices and routines Face masking practices have become highly political The USA has witnessed protests against face mask wearing that rest on sovereign individualism a notion which is highly specific to the contemporary political climate in that country Face masks have also been worn to make political statements bearing anti racist statements for example but also Trump campaign support Meanwhile celebrities and influencers have sought to advocate for face mask wearing as part of their branding while art makers museums designers and novelty fashion manufacturers have identified the opportunity to profit from this sudden new market Face masks have become a fashion item as well as a medical device both a way of signifying the wearer's individuality and beliefs and their ethical stance in relation to the need to protect their own and others health The Face Mask in COVID Times A Sociomaterial Analysis provides a short and accessible analysis of the sociomaterial dimensions of the face mask in the age of COVID 19 The book presents seven short chapters and an epilogue We bring together sociomaterial theoretical perspectives with compelling examples from public health advice and campaigns anti mask activism as well as popular culture news reports blog posts videos online shopping sites art works to illustrate our theoretical points and use Images to support our analysis **Exhibitors Daily Review** ,1950 **Michigan Law Review** ,2018-10 **The AI Marketing Canvas**

Cunningham has been at the forefront of tech and innovation since day one and she s been helping companies create new product categories ever since Now she reveals the winning framework she uses to transform markets and industries Get to

Aha shows how to establish the kind of foundation world class brands are built on Too many business leaders fail to ask the most basic questions about their company Who are we And why do we matter before they leap right into branding Big

mistake A company must first know itself establish its position before it can express its identity execute its branding There are three types of companies in the world each with its own DNA Mothers are customer oriented Mechanics are product

oriented and Missionaries are concept oriented and it s absolutely critical for business leaders to know which type their company is to create an authentic and ultimately sticky position in the market A company s DNA is the key to achieving this

and with it a competitive advantage Why Because if a Mechanic creates a marketing campaign based on its belief that it is a Missionary the underlying positioning will not ring true and the company won t gain a foothold in the market But if a

company positions itself in alignment with its DNA it will resonate authentically and establish its role and relevance even in the face of a major competitor Get to Aha presents a clear step by step framework that will help you determine your company s precise position in the marketing landscape using Andy s DNA based methodology It takes you through the process of

performing genetic testing on your company examining the market through the six Cs of positioning and developing your

positioning statement a rational factual statement about your company s role and relevance Then and only then can you

create a branding and marketing strategy that will build market momentum and crush the competition Trust Andy Steve Jobs
