Devoured Sophie Egan, 2016-05-03 A provocative look at how and what Americans eat and why a flavorful blend of *The Omnivore's Dilemma*, *Salt Sugar Fat* and *Freakonomics* that reveals how the way we live shapes the way we eat. Food writer and Culinary Institute of America program director Sophie Egan takes readers on an eye-opening journey through the American food psyche, examining the connections between the values that define our national character—work, freedom, and progress—and our eating habits, the good and the bad. Egan explores why these values make for such an unstable and often unhealthy food culture and paradoxically why they also make America's cuisine so great. Egan raises a host of intriguing questions: Why does McDonald's have 107 items on its menu? Why are breakfast sandwiches, protein bars, and gluten-free anything so popular? Will bland, soulless meal replacements like Soylent revolutionize our definition of a meal? The search for answers takes her across the culinary landscape from the prioritization of convenience over health to the unintended consequences of perks like free meals for employees, from the American obsession with having it our way to the surge of Starbucks, Chipotle, and other chains individualizing the eating experience from high culture artisan and organic to what exactly natural means to low culture. The sale of 100 million Taco Bell Doritos Locos Tacos in ten weeks. She also looks at how America's cuisine, like the nation itself, has been shaped by diverse influences from across the globe. *Devoured* weaves together insights from the fields of psychology, anthropology, food science, and behavioral economics, as well as myriad examples from daily life, to create a powerful and unique look at food in America.

The Lonely Hunter Aimée Lutkin, 2022-02-03 A COSMOPOLITAN BEST NON FICTION BOOK OF 2022. More people are single today than ever before. Yet in a world where romantic love still reigns, the stories we tell ourselves haven't kept up. *The Lonely Hunter* explores the rise of singledom, the realities of loneliness, and whether it is possible to live contentedly alone. So what's going on in your love life? An innocent question at a dinner party prompted Aimée Lutkin to finally tell the truth: it was six years since her last relationship, and she suspected it would be better to accept the life she had—a life she liked very much—rather than keep searching. But Lutkin's answer was met with uproar: surely she couldn't give up on love. So she threw herself into dating, going on two dates every week. Documenting her experiences, Lutkin explores the reality of sexual relationships today and reveals how the cultural messages we receive shape our expectations of love. From weird Tinder hookups to the way the self-care industry capitalises on our fear of being alone, to the complexities of queer dating and the truth about the loneliness epidemic, she uses her experiences to fearlessly tell a wider story about how
