Authentic Engagement by Understanding What Motivates Us Joe Federer,2020-09-15 From the former Head of Brand Strategy at Reddit comes a proven and thought provoking approach to the digital economy and how brands can create authentic engagement that is rooted in the fundamental motivations behind human psychology. Leading marketing practitioner and thought leader Joe Federer draws on evolutionary biology, anthropology, neuroanatomy and psychology as well as more than a decade of hands on experience to explain why people act so differently in various online spaces and what they are seeking from participating in each one. With a framework based on Freud's Id, Ego and Superego model of the human psyche, he demonstrates how the internet is a digital reflection of the collective human psyche and how different social networks correspond to different mindsets. Platforms like Reddit to the unfiltered Id, Facebook and Twitter to the managed Ego and Instagram to the ideal Superego. In the same way you behave differently when you're home alone, out with friends, communicating with family or interacting with coworkers, people act and express themselves differently in these various online spaces. Context matters. Understanding this will enable you to develop and execute effective engagement strategies to reach your target audiences on each social network. Learn how to create content that drives sharing and word of mouth, how brands can fit natively into different types of social channels, how to balance branded social presences across different networks, why authenticity will only grow in importance to consumers. Fascinating and deeply compelling, *The Hidden Psychology of Social Networks* will equip you to make vastly more efficient use of your media buys, establish more thoughtful strategies, develop better creative and, in the end, deliver more effective marketing that provides value.

In homes, dorm rooms, waiting rooms, planes and trains around the world, millions of people are exercising enormous influence on what we buy, even though they have no official connection to those products and services. Who are they? What motivates them? Marketing experts Ben McConnell and Jackie Huba explore the ramifications of social media in *Citizen Marketers*. As everyday people increasingly create content on behalf of companies, brands or products, they are collaborating with others just like themselves and forming ever growing communities of enthusiasts and evangelists. From the rough to the sophisticated, the user generated media of blogs, online bulletin boards, podcasts, photos, songs and animations are influencing companies' customer relationships, product design and marketing campaigns, whether they participate willingly or not. *Citizen Marketers* is the first book to document this phenomenon, examining some of the early winners and losers in this new genre, as well as some of its most noted constituents.
