**NAFA's Blue Book** Humphrey Humberto Pachecker,2010-11-04 We all agree that a book synopsis is basically a summary or an overview of a book The most important thing to remember when writing a book synopsis is that the synopsis should be considerably shorter than the book because synopses condense the information of a much larger work Writing a good book synopsis requires a full understanding of the subject and the book in question It is impossible to write a synopsis on a book that you have not read Based on this definition the author of this book NAFA S BLUE BOOK Humphrey Humberto Pachecker being a foreign legal consultant attorney and a professor of law himself follows a Bar Journal s article which concluded in its recommendation that the United States stands to gain a great deal from the globalization of the world economy and the attendant increase in international business whether resident or nonresident an attorney foreign legal consultant readily at hand can be of immeasurable aid in meeting the challenge of our economic future International business has in the past secured economic prosperity in Florida USA at times when other states had not fared so well In this common law jurisdiction the foreign attorney as well the local attorney and the law student is pivotal the domination of legal terminology Common law jurisdiction s courts greatly rest its decision in precedents Therefore the correct interpretation for a legal terminology term as is for example stare decisis which is a legal term from Latin that means to stand by things decided is the core of legal writing which in turn it must be able to express legal analysis and legal rights and duties
