

## What is Narrative Inquiry (Howie, 2010, Connelly and Clandinin, 1990)

- Each research method generates data in different forms: effects, mechanisms of change, themes and models, turn-taking processes, etc\*
- Narrative inquiry generates data in the form of stories and typologies of stories
- Preserves the complexity and temporal context of lived experience
- Temporal unity is maintained through the use of plot
- narrative inquiry is not **what happened** so much as **what meaning did people make of what happened**.
