Cognitive Narrative Thematics Daniel Candel, 2023-12-22 Cognitive Narratives Thematics proposes a new way in which narrative works organise their thematic material. It rehabilitates the study of what books are about by providing a cognitive narrative thematic model. CNT Part I presents CNT by combining different approaches to narrative such as evolutionary theory, semiotics, possible worlds theory or rhetorical criticism. Part II applies CNT to a variety of well-known narratives in different modalities such as Robert Browning's *My Last Duchess*, Julia Donaldson's *The Gruffalo*, Maurice Sendak's *Where the Wild Things Are*, Frank Miller's *300* or Mike Mignola's *Hellboy*. It also considers literary histories and digital humanities. Daniel Candel shows that CNT deserves greater attention and that thematic generates its own forms and adds to the aesthetic pleasure of the text. Candel illustrates that CNT improves the established interpretations of the narrative works it studies. This innovative study reveals how CNT offers readers a deeper understanding and how readers and critics are often using CNT intuitively without being aware of it. It is an invaluable resource for students and scholars of narrative theory.

Guide to Kansas Architecture David H. Sachs, George Ehrlich, 1996 Some were designed in elaborate styles bearing elegant names: Beaux Arts, French Renaissance, Art Deco. Others were humbly handcrafted from easily accessible materials: wood, stone and sod. But whether courtly, colloquial, capricious or curious, each of the state's architectural configurations has become an aesthetic slice of Kansas. In *Guide to Kansas Architecture*, David Sachs and George Ehrlich spotlight hundreds of these surprisingly diverse homes, businesses, schools, churches, courthouses, theaters, bridges and barns spread throughout all 105 counties. Encompassing the historical and contemporary, the vernacular and singular, this book features Victorian masterpieces, stately courthouses and split-level suburban homes alongside the likes of the world's most beautiful gas station and Big Brutus, the enormous electric coal shovel turned museum. Illustrating where, how and why Kansans assembled and altered their physical surroundings, the authors have amassed information on 700 structures, including descriptions, construction dates, architects, historical background and unusual traits. They also provide maps and addresses to make them easy to find. This one-of-a-kind guide for Kansas underscores architecture's bond with the state's artistic, cultural, historical, social, political and economic attributes and idiosyncrasies. As a handy reference and traveling companion, it will be invaluable to the well-versed architect, preservationist or historian as well as to the merely inquisitive and adventurous. A Grammar of (Western) Garrwa Ilana Mushin, 2012-12-06 Mushin provides the first full grammatical description of Garrwa, a critically endangered language of the Southwest Gulf of Carpentaria region in Northern Australia. Garrwa is typologically interesting because of its uncertain status in the Australian language family, its pronouns and its word order syntax. This book covers Garrwa phonology, morphology and syntax with a particular focus on the use of grammar in discourse. The grammatical description is supplemented with a word list and text collection, including transcriptions of ordinary conversation.
