Quality Assurance and Accreditation in Distance Education and e-Learning Insung Jung, Colin Latchem, 2012-04-05 Quality assurance QA in open and distance learning ODL can be a contentious issue Some argue that it should be judged by

the same criteria and methods as face to face education while others claim that it is so different in its organization enrolments and operations that conventional QA mechanisms cannot apply Some advocate the use of specific guidelines and standards for e learning others believe that regardless of the technology the basic principles of quality teaching and learning should apply Providers who have enjoyed freedom from external scrutiny may resist attempts at external regulation and auditing and look upon QA as yet another imposition of corporatization and bureaucracy on education Others see it as a means of establishing a culture of quality self reflection and self improvement There is little research based literature to guide policy makers managers and practitioners in applying QA in education and training to ensure the right balance is found between accountability and autonomy as well as assuring quality for the time and costs involved In this respect Quality Assurance and Accreditation in Distance Education and e Learning is a book that is long overdue It explains what is involved in QA and accreditation in education It describes and analyzes applications of these practices in open distance dual mode and conventional universities throughout Europe North America Africa and the Asia Pacific looking at open schooling e learning in conventional schools non formal adult and community education and corporate and small to medium enterprises Quality Assurance and Accreditation in Distance Education and e Learning is edited and authored by experts with extensive international experience in ODL e learning and QA who give careful consideration to the possibilities and challenges involved The book will be an invaluable guide for all policy makers managers practitioners and researchers in the field
