Burning the May Tree: The Sacrifice of Jim Morrison Chris M. Balz, 2019-04-01 Unlocks the history and significance of the rock band The Doors in terms of Jim Morrison's published poetry. The book gives us a window into an epic struggle for cultural change and how it was suppressed. A great way to get started with Jim's poetry and Doors history. Every time I pick up the new edition of Burning The May Tree I discover a thought or idea about Jim's poetry that strikes me as unique and insightful. Yours is the only book to shine a focused intelligent and critical light on Morrison's writing. Frank Lisciandro co-editor of Wilderness and The American Night books of Jim Morrison's posthumously published poetry. **Beyond Esoteric** Brad Olsen, 2025-01-01 Nothing in this world works the way you think it does. There is always more to the story. Be aware that there is a war for your mind and your soul. Corporations have taken over governments in a new form of Fascism that now incorporates high technology and artificial intelligence. The survival of the human race may depend on breaking the Embargo of truth and collectively developing an berMind. But truth always resonates. Beyond Esoteric takes off the kid's gloves and exposes the control grid extending its tentacles across the planet. The word occult means nothing more than to study the realm of the hidden. So much of real knowledge and wisdom is disguised because the people who run the planet feel that true information of how the world works and how to manifest reality is something you do not need to know. Everything we think we know about the world and the universe in which we live whatever we have been led to believe concerning the course of human history could very well be completely wrong, distorted and misinformed. The 19th century teachers of the occult could never have imagined The Ultimate Journey of the 21st century we now face one that extends far Beyond Esoteric.

TURMOIL IN USA Mundiayath Venugopalan, 2024-12-04 In this book we try to describe what created the turmoil: the changing American family, children's education, employment, open borders and illegals, in the millions, impact of crime and proxy wars, taxation and spending in the trillions, increasing national debt, disputed elections, two failed assassination attempts on former president Trump, a coup on sitting president Biden by Demo elites and losing our greatness. Average Americans can only impact the direction of the country by voting in elections, but now there is too much money in our elections for the less competent to get elected, making it dangerous to the overwhelming share of us, the people. Common people going to a supermarket find grocery prices up by 20% though wages after taxation have been down nearly 5%. Biden's DEIA and woke government has created new race problems in our schools and universities. We don't want Biden's sweeping Title IX proposal that would bring in gender identity and sexual orientation in schools just as financier George Soros aimed for biological males to compete in girls sports and use bathrooms and locker rooms that correspond with their gender identity. We need to reorganize the departments involved in educating our children and the educational foundations in schools and colleges at all levels. President Biden's open border policy brought in several million strangers of unknown value and utility for us taxpayers to support. Family structure the country was proud of since inception was destroyed. Starting new proxy wars with weak woke

military and financing them on taxpayer dime at the same time not caring for citizen safety from crime and drug proliferation became undesirable to many citizens Worst of all these playing Mother Nature on climate and proxy wars with huge amounts of our money has not been rewarding Certainly we don't want four more years of Biden's taxing and spending that would increase the federal debt for our children immensely Having lost people support Biden withdrew his nomination and Harris was chosen to oppose former president Trump We prayed that America become safe soon after the 2024 election with a Trump victory People want to be prideful in this country again People want a cheerleader for this nation not the one without redeeming value we now have sleeping most of the time on the beach And we don't have much hope if flip flop giggling Vice president Harris with no change in value gets elected with Joy To our surprise former President Trump painted USA Republican red defeating Harris badly by midnight on election night

In Search of Monsters to Destroy Christopher J. Coyne, 2022-12-08 Imperialism and militarism build empires not liberalism So says Christopher Coyne Senior Fellow at the Independent Institute and professor of economics at George Mason University in this eye opening must read book on America's recent foreign policy failures The attempt by the United States since 9/11 to establish liberal political regimes in the Middle East and in the mountains of Afghanistan was doomed to fail And the logic is simple illiberal means can lead only to illiberal ends What else are the hundreds of thousands of dead and mutilated civilians the US military left behind from 2003 to 2021 in these regions The destroyed ancient cultures and nearly obliterated nation states Coyne also points out that the illiberal perpetrators also can end up not only nearly bankrupt and humiliated but also profoundly less secure If we do not absorb these hard truths says Coyne the rest of the twenty first century will be a repeat of its bloodstained unstable beginning But Coyne is no isolationist A vocal champion of global engagement Coyne insists there are workable proven alternatives to imperialism militarism and empire ones deeply rooted in human experience that preserve freedom promote security and foster mutually enriching friendship among the nations of the earth Read *In Search of Monsters to Destroy* and you'll never look at the nation state or international relations the same again

Intelligence Elites and Public Accountability Vian Bakir, 2018-04-17 This book provides a definitive overview of the relationships of influence between civil society and intelligence elites The secrecy surrounding intelligence means that publication of intelligence is highly restricted barring occasional whistle blowing and sanitised official leaks These characteristics mean that intelligence if publicised can be highly manipulated by intelligence elites while civil society's ability to assess and verify claims is compromised by absence of independent evidence There are few studies on the relationship between civil society and intelligence elites which makes it hard to form robust assessments or practical recommendations regarding public oversight of intelligence elites Addressing that lacuna this book analyses two case studies of global political significance The intelligence practices they focus on contemporary mass surveillance and Bush era torture intelligence policies have been presented as vital in fighting the Global War on Terror enmeshing governments of scores of nation states while challenging internationally established human rights

to privacy and to freedom from torture and enforced disappearance The book aims to synthesise what is known on relationships of influence between civil society and intelligence elites It moves away from disciplinary silos to make original recommendations for how a variety of academic disciplines most likely to study the relationship between civil society and intelligence elites international relations history journalism and media could productively cross fertilise Finally it aims to create a practical benchmark to enable civil society to better hold intelligence elites publicly accountable This book will be of great interest to students of intelligence studies surveillance media journalism civil society democracy and IR in general

Breakthrough 2.0: Singaporeans Push For Parliamentary Democracy Derek Da Cunha, 2022-01-07 Some six decades of socialisation by the ruling People's Action Party PAP has ingrained in a majority of Singaporeans the instinct that it is not unusual to give up certain personal liberties for the greater good as long as the PAP State ensures the material well being of Singaporeans The general election of 2020 GE2020 during the COVID 19 pandemic put this social compact between the people and the State to the test Significant job losses wage cuts and an erosion of personal wealth due to measures to counter the pandemic cut substantially into the PAP popular vote nationally and resulted in an unprecedented 10 candidates from the opposition Workers Party WP being elected to Parliament GE2020 confirmed the trend from GE2011 when the WP first made a breakthrough that Singaporeans will only accept a party in moderate opposition to the PAP This narrative differs markedly from conventional wisdom Breakthrough 2.0 explores the aforementioned phenomena The book analyses critically the issues surrounding parliamentary elections in Singapore It also focuses on issues not explored by many other observers namely voter psychology election processes and party branding A comparative analysis of election practices and processes in other jurisdictions is also employed to determine where parallels can or cannot be drawn with the situation in Singapore The author has had direct access to personalities across the political parties Consequently he utilises primary sources supported by evidence in sketching out backstories to events which exposes certain myths that were prevailing in social media in the months running up to GE2020
