his thinking should be either theistic or atheistic and never both at the same time It has to be a discourse about God which is not the return to the old onto theology but it requires that one constructs a more poetic discourse about God and attempts to interpret the divine and the sacred not as God as such but as names that one uses to refer to God This poetic discourse however has some relevancies in a Christian tradition especially if one looks at the concept of revelation of the undescribed Last God which is close to the understanding of revelation in the Christian tradition The second part of our study tried to ask the question of being but in a new perspective according to the method of transcendental philosophy We have emphasized how indeed there is a link between the existential phenomenology of Martin Heidegger and the research in neo scholastic Joseph Mar chal J B Lotz K Rahner and Emerich Coreth Otto Muck all Jesuits Fathers thought about the question of being as the foundation of beings as the foundation of what is there It is a sort of a further development of the ontology of Heidegger in the perspective of Christian philosophy and theology The Europa International Foundation Directory 2007 Europa Publications,2007-06 A comprehensive guide to foundation activity on a world wide scale **Current Index to Journals in Education** ,1997 Scientific American ,1893
