**Growing Old in a Better World** Robert Troschitz, 2024-09-23 As utopias question social ills and express human wants and unfulfilled dreams they offer insights into the problems desires and ideals of a certain time This book uses this lens to examine cultural representations of ageing and old age in utopian writings from the Renaissance till today The individual chapters offer detailed analyses and interpretations of numerous utopias from Thomas More's Utopia 1516 to contemporary science fiction Through close readings the book explores age related fears and ideals and investigates how perceptions of ageing and the life course as well as attitudes towards older people have developed over the centuries Covering a large time span and a broad range of different utopias the book identifies long term developments and also puts certain dreams such as that of ever lasting youth into a wider perspective It thus enriches both our understanding of the cultural history of ageing and the history of utopian thought The book will appeal to scholars and students from the fields of cultural gerontology and utopian studies as well as literary studies and cultural history more generally

**Sourcebook of Ufo Religions** James R. Lewis,2003-11 The macabre mass suicide by adherents of the Heaven s Gate Cult in 1997 was shocking and difficult to comprehend for most outsiders Their bizarre mindset which mixed New Age religion with belief in extraterrestrial visitation struck many as unique In fact as the contributors to this intriguing study show the belief in alien contact has had religious overtones since the first purported sighting of an unidentified flying object UFO in 1947 Moreover the religious dimensions of the UFO phenomenon may be the key to understanding the widespread appeal of this modern craze An expert in new religions Professor James Lewis has here brought together twenty insightful articles that cover the many variations of UFO based religions What the contributors demonstrate is that there are persistent and salient themes underlying the diversity of beliefs centered on the UFO phenomenon Hearkening back to theosophy many groups have interpreted UFO sightings and alleged contacts as attempts by alien ambassadors from a more advanced civilization to

bring spiritual enlightenment to Earth where humanity is seen to be floundering in ignorance The extraterrestrial message is usually channeled through a charismatic human leader who then mobilizes a group around this New Age revelation The Encyclopedic Sourcebook of UFO Religions discusses the histories and beliefs of prominent UFO based sects looks at group dynamics and other sociological factors and presents selections from the unusual literature of the various groups This revealing and disturbing study shows that there is much more to the UFO phenomenon than simple curiosity about the possibility of life on other planets

**Climate Trauma** E. Ann Kaplan,2015-12-04 Each month brings new scientific findings that demonstrate

the ways in which human activities from resource extraction to carbon emissions are doing unprecedented perhaps irreparable damage to our world As we hear these climate change reports and their predictions for the future of Earth many of us feel a sickening sense of d j vu as though we have already seen the sad outcome to this story Drawing from recent scholarship that analyzes climate change as a form of slow violence that humans are inflicting on the environment Climate

Trauma theorizes that such violence is accompanied by its own psychological condition what its author terms Pretraumatic Stress Disorder Examining a variety of films that imagine a dystopian future renowned media scholar E Ann Kaplan considers how the increasing ubiquity of these works has exacerbated our sense of impending dread But she also explores ways these films might help us productively engage with our anxieties giving us a seemingly prophetic glimpse of the terrifying future selves we might still work to avoid becoming Examining dystopian classics like Soylent Green alongside more recent examples like The Book of Eli Climate Trauma also stretches the limits of the genre to include features such as Blindness The Happening Take Shelter and a number of documentaries on climate change These eclectic texts allow Kaplan to outline the typical blind spots of the genre which rarely depicts climate catastrophe from the vantage point of women or minorities Lucidly synthesizing cutting edge research in media studies psychoanalytic theory and environmental science Climate Trauma provides us with the tools we need to extract something useful from our nightmares of a catastrophic future
