Discerning Vocations to the Apostolic Life, the Contemplative Life, and the Eremitic Life Marie Theresa Coombs, Francis Kelly Nemeck OMI, 2018-09-25 Throughout the spiritual journey God's love engenders within every Christian active contemplative and solitary inclinations. Consequently each person wants to do some good to have a basic receptivity to God and at times to be alone with God. As life unfolds God's love also calls forth within a person an overriding attraction toward one of those three orientations which in due course impels the individual toward a corresponding vocational lifestyle: an apostolic life, a contemplative life, or an eremitic life. In this book the authors identify the core features of those three vocational lifestyles. In light of each vocational core they then discuss an ensemble of signs and patterns that point to an authentic calling from God. This study offers wisdom and insight to those pondering the mystery of their personal vocations to those discerning their vocational direction and to spiritual directors, formation personnel, ecclesial leadership, and Christian educators who accompany them in their quest.

, 1985 **The Publishers' Trade List Annual**, 1985 *Sustainability and Spirituality* John E. Carroll, 2012-02-16 This groundbreaking book explores the inherent interconnectedness of sustainability and spirituality acknowledging the dependency of one upon the other. John E. Carroll contends that true ecological sustainability in contrast to the cosmetic attempts at sustainability we see around us questions our society's fundamental values and is so countercultural that it is resisted by anyone without a spiritual belief in something deeper than efficiency, technology or economics. Carroll draws on the work of cultural historian and geologist Thomas Berry whose eco spiritual thought underlies many of the sustainability efforts of communities described in this book including particular branches of Catholic religious orders and the loosely organized Sisters of the Earth. The writings of Native Americans on spirituality and ecology are also highlighted. These models for sustainability not only represent the tangible link between ecology and spirituality but also more importantly a vision of what could be.
