,2005 *Behavioural Sports Economics* Hannah Josepha Rachel Altman,Morris Altman,Benno Torgler,2021-12-19

Economists have entered into the realm of sports to provide what they believe to be more cogent explanations for sport related behaviour and to suggest ways in which incentives can improve sports outcomes But prices and income the traditional workhorses of conventional economics can only provide partial explanations and understandings Drawing on a bounded rationality approach to behavioural economics this book demonstrates the analytical insights to be gained by supplementing the conventional economics toolbox with psychological cognitive sociological and institutional factors The international cast list of contributors cover a wide range of sports topics on which a behavioural approach can reveal new insights These include preferences managerial efficiency choking doping favouritism athlete well being and spectator

behaviour Throughout the book there is an emphasis on the cognitive limits to smart decision making as well as the critical role played by the decision making environment This volume demonstrates that adopting a bounded rationality approach complimented with other behavioural approaches helps to better explain sport related behavioural sub optimal behavioural and market failures It also provides insights that could be used to improve sports outcomes and the well being of those involved in sports and to better configure policy to enhance sports performance This groundbreaking book will be an indispensable reference to students and scholars of sports economics sports management and sports science **PC World**
