Chatgpt Openai Update:

Robot-Proof, revised and updated edition Joseph E. Aoun, 2024-10-15 A fresh look at a robot proof education in the new age of generative AI In 2017 Robot Proof the first edition foresaw the advent of the AI economy and called for a new model of higher education designed to help human beings flourish alongside smart machines That economy has arrived Creative tasks that seven years ago seemed resistant to automation can now be performed with a simple prompt As a result we must now learn not only to be conversant with these technologies but also to comprehend and deploy their outputs In this revised and updated edition Joseph Aoun rethinks the university's mission for a world transformed by AI advocating for the lifelong endeavor of a robot proof education Aoun puts forth a framework for a new curriculum humanics which integrates technological data and human literacies in an experiential setting and he renews the call for universities to embrace lifelong learning through a social compact with government employers and learners themselves Drawing on the latest developments and debates around generative AI Robot Proof is a blueprint for the university as a force for human reinvention in an era of technological change an era in which we must constantly renegotiate the shifting boundaries between artificial intelligence and the capacities that remain uniquely human

2084 and the AI Revolution, Updated and Expanded Edition John C. Lennox, 2024-11-26 Will technology change what it means to be human You don't have to be a computer scientist to have discerning conversations about artificial intelligence and technology We all wonder where we're headed Even now technological innovations and machine learning have a daily impact on our lives and many of us see good reasons to dread the future Are we doomed to the surveillance society imagined in George Orwell's 1984 Mathematician and philosopher John Lennox believes that there are credible responses to the daunting questions that AI poses and he shows that Christianity has some very serious sensible evidence based things to say about the nature of our quest for superintelligence This newly updated and expanded edition of 2084 will introduce you to a kaleidoscope of ideas Key recent developments in technological enhancement bioengineering and in particular artificial intelligence Consideration of the nature of AI systems with insights from neuroscience The way AI is changing how we communicate implications for medicine manufacturing and the military its use in advertising and automobiles and education and the future of work How data is used today for surveillance thought control The rise of virtual reality and the metaverse The transhumanist agenda and longtermism The agreements and disagreements that scientists and experts have about the future of AI The urgent need for regulation and control in light of the development of large language transformers like CHATGPT Key insights from Scripture about the nature of human beings the soul our moral sense our future and what separates us from machines In straight forward accessible language you will get a better understanding of the current capacity of AI its potential benefits and dangers the facts and the fiction as well as possible future implications Since the questions posed by AI daunting as they might be affect most of us they demand answers 2084 and the AI Revolution Updated and Expanded Edition has been written to challenge and ignite the curiosity of
