**Review of Reviews** Albert Shaw, 1891    **Chest**, 2009    Toward Quality Assurance and Excellence in Higher  
Education Ahmed Odeh Al Jaber, 2022-09-01 Quality Assurance is not a new concept in the education sector in general and  
higher education in particular though it is becoming increasingly more relevant and important Higher education helps to  
improve an individual's quality of life by enabling them to inflate their knowledge and expertise to grasp abstract concepts  
and theories and to raise their awareness of the world and their community and as such the assurance of quality is becoming  
more pivotal in the whole education process There is no simple definition of the concept of quality in education though  
numerous models and theories have been devised Toward Quality Assurance and Excellence of Higher Education is a new  
episode of the Quality Assurance perception in higher education which identifies the quality culture and orientation from the  
beginning integrating crucial factors to build a pyramid of higher education excellence The book compares concepts from the  
main theories of Quality Assurance management and control when they are applied to educational systems in higher  
education The book also presents a new model of excellence in higher education Excellence is an architecture of building  
blocks that comes with process performance effectiveness harmony and collaboration which should be incorporated in a  
quality oriented concept of a sustainable excellence of higher education The model integrates four main facets the  
Educational System Quality Assurance Managing and Control Strategic Planning and Globalization Also presented are
