Mad Politics Gina Loudon, 2018-09-04 If the definition of insanity is doing the same thing over and over and expecting a different result America has been insane for decades We ve elected establishment politicians on both sides of the aisle we ve hoped for

change and we've been disappointed. But with the election of Donald Trump, America tried something new. So we have to ask ourselves: what if Trump isn't the crazy man that the media pretends he is? What if he's actually the cure for a country who's been going mad for years? In *Mad Politics*, Fox News commentator, radio host, and psychological analyst Dr. Gina Loudon diagnoses the problem with America's status quo politics. Loudon has unique insight into both the Trump campaign and the larger political landscape as a member of the president's 2020 media advisory board, a former surrogate for his campaign, the wife of a former Senator from Missouri, the co-host of a national television show, a seasoned psychological analyst on FOX News, CNN, and others, and a twice-pedigreed Master and Ph.D. With authority and wit, *Mad Politics* exposes cultural patterns that have led to today's political narcissism. She scans the psychological literature and illuminates a formula to answer the question: How can we restore a sound mind to the body politic? The answer, Loudon concludes, may be in joining Trump in a complete rejection of political correctness.
