**The Silent Echo** Conrad Riker, They ve Declared War on Men Will You Surrender or Fight Back Ever been labeled a monster over a lie that cost you your home kids and future Tired of being guilty until proven innocent in courts that side with her before you speak Watched your life s work vanish into the gynocratic machine while society calls it justice Expose how 73% of alimony victims are men and how to avoid becoming one Unmask the feminist playbook rigging courts media and laws against you Discover why 40% of domestic abuse claims in custody battles are provably false Debunk the toxic masculinity trap Women crave strength but punish you for using it Learn the legal hacks to shield your assets reputation and fatherhood Fight BelieveAllWomen lies with strategies that force truth into the spotlight Escape the male disposability script that drives 3 5x more men to suicide Rebuild as a leader not a slave using evolutionary biology and biblical wisdom If you want to END the lies SAVE your future and RECLAIM your right to exist buy this book TODAY before they ban it

*Common Sense Mathematics* Ethan D. Bolker,Maura B. Mast,2016-05-04 Common Sense Mathematics is a text for a one semester college level course in quantitative literacy The text emphasizes common sense and common knowledge in approaching real problems through popular news items and finding useful mathematical tools and frames with which to address those questions We asked ourselves what we hoped our students would remember about this course in ten year s time From that ten year perspective thoughts about syllabus what topics should we cover seemed much too narrow What matters more is our wish to change the way our students minds work the way they approach a problem or more generally the way they approach the world Most people skip the numbers in newspapers magazines on the web and more importantly even in financial information We hope that in ten years our students will follow the news confident in their ability to make sense of the numbers they find there and in their daily lives Most quantitative reasoning texts are arranged by mathematical topics to be mastered Since the mathematics is only a part of what we hope students learn we ve chosen another strategy We look at real life stories that can be best understood with careful reading and a little mathematics
