China's Weaponization of Trade Victor D. Cha, Ellen Kim, Andy Lim,2026-01-20 In recent years China and the United States have each turned economic interdependence into an instrument of coercion using their dominant positions in international trade to push states and firms to comply with their political goals What is distinctive about this form of economic pressure and how can other countries fight back This groundbreaking book explores the weaponization of economic interdependence and its implications for the international order through a wealth of new and original data on China s economic statecraft Victor D Cha Ellen Kim and Andy Lim examine how and in what ways the United States and China have deployed economic coercion focusing on China s extensive use of this tactic over the past three decades They

analyze a vast data set that includes more than 600 cases of China's economic bullying of states, companies and individuals in North America, Asia and Europe. Cha Kim and Lim propose a multilateral strategy of collective resilience to counter intimidation, showing how targeted states can band together, leverage trading relationships and threaten retaliation. Synthesizing new insights from unique trade data with international security expertise, this timely book sheds new light on how China exercises economic power and it provides a playbook to deter bullies and rebalance the global order. **The Michigan Journal**, 2011 USA Today Index, 1996 White Collar Report, 1983-07 **The Boston Globe Index**, 1996
